General Information

Continuing Medical Education

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The American Society of Dermatopathology designates this live activity for a maximum of 35 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Medical Education Policy

The American Society of Dermatopathology (ASDP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME). As such, we are required to meet the ACCME's expectations for our practice of continuing medical education.

It is the policy of the ASDP to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. Faculty participating in and planning the Annual Meeting must comply with all procedures governing disclosure. The ASDP has implemented a process where everyone in a position to control the content of an educational activity will present evidence-based content, disclose all relevant financial relationships with any commercial interest and discussion of unlabeled/investigational uses of a commercial product. In addition, presentations must be free of commercial bias and any information regarding commercial products/services must be based on scientific methods generally accepted by the medical community. Conflicts were resolved prior to this educational activity. Faculty who refused to disclose relevant financial relationships and discussion of unlabeled/investigational uses of a commercial product would have been disqualified from participating in the planning and implementation of this CME activity.

Presenters who qualified for the implementation of this activity are required to disclose to the audience verbally and in writing, immediately prior to the scientific presentation, any of the relationships mentioned above. Faculty relationships are also disclosed in this program book.

CME Claims and Verification of Attendance

Important! Attendees will be able to claim their CME credits online via the ASDP website after the meeting. You must submit your CME credit online in order to receive appropriate CME credit. The number of CME credit available for each course is indicated by the course title in this program and on the online CME submission site. A **CME Tracker** is included in this book on page 69. An official CME certificate will be available to print immediately after completing the online CME claim form and evaluation. Paper certificates will not be mailed.

Appropriate credit for attendance should be ascertained and reported by individual physicians to the particular state or medical society to which he/she belongs.

CC/MOC Claims and Verification

CC/MOC credit for the Self-Assessment in Dermatopathology sessions will not be included on the Annual Meeting CME Certificates. Participants must complete the post-course online self-assessment with a score of 60 percent or better in order to claim CC/MOC credit for Self-Assessment in Dermatopathology. A MOC certificate will be available to print upon successful completion of the post-course online self-assessment.

Learning Objectives

The educational mission of the ASDP is to teach, aid in the dissemination of knowledge and encourage research to improve the quality of the practice of dermatopathology. The annual meeting is primarily an educational one, offering members, fellows, residents and medical students lectures on current topics in dermatopathology, interactive sessions at the microscope, a self-assessment course, and opportunities for poster and abstract presentations.

After attending the 2018 Annual Meeting, participants should be able to:

- Diagnose a wide spectrum of tumors and dermatoses.
- Demonstrate a practical approach to handling challenging cases, such as lymphoproliferative disorders and melanocytic lesions.
- Identify potential confocal technology models in dermatopathology practice that can improve patient care and outcome.
- Understand the importance of self-care skills such as work-life balance, ergonomics, and wellness strategies.
- Describe the relevance of advocacy and policy development as it relates to dermatopathology.
- Apply updated AJCC criteria and evidence-based guidelines to optimize cost-effective care.
- Compare diagnoses and approaches to everyday challenging and/or ambiguous cases with colleagues and experts.
- Recognize opportunities and areas of potential contribution in personal growth and evolution of the practice of dermatopathology.
- Utilize clinical, morphologic, immunophenotypic and molecular parameters to accurately diagnose B-cell lymphoproliferative diseases.

ACGME Competencies

The ASDP 55th Annual Meeting is designed to meet the following Accreditation Council of Graduate Medical Education competencies:

- Evidence-based Practice
- Medical Knowledge
- Patient Care
- Practice-based Learning and Improvement
- Professionalism
- Quality Improvement
- Systems-based Practice

The American Society of Dermatopathology

Poster Presentations

Continental Ballroom, Lobby Level

1.5 AMA PRA Category 1 CME Credits™

Participants will earn .75 AMA PRA Category 1 CME Credit™ for each Poster Defense Session attended.

Basic research, practical techniques and new clinical or histopathologic entities will be presented in this traditional and popular format. Posters will be on display in two poster sessions Thursday afternoon through Sunday morning. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting. See the Program-at-a-Glance for complete Poster Session 1 and 2 schedules.

Poster Session 1 Viewing

Opens at 1 p.m. Thursday, November 8, until 5 p.m. Friday, November 9

Poster Session 2 Viewing

Opens at 8 a.m. Saturday, November 10, until 11 a.m. Sunday, November 11

Poster Defense Sessions

The poster defense sessions will provide an opportunity for discussion between poster presenters and attendees. Poster presenters are asked to make every effort to be at their poster during the defense sessions.

Poster Session 1 Defense:

Friday, November 9: 3:45 p.m. – 4:30 p.m.

Poster Session 2 Defense:

Saturday, November 10: 10:00 a.m. – 10:45 a.m.

After attending the Poster Defense Sessions, participants should be able to:

- Identify practical techniques in dermatopathology.
- Name new clinical or histopathological entities.

Slide Library

Opens Friday, November 9, at 1 p.m.

Williford B/C, 3rd Floor

The ASDP Slide Library opens Friday, Nov. 9, at 1 p.m. and will be open 24-hours-a-day through Sunday, Nov. 11, at 11 a.m.

Selected cases from the continually growing slide library will be available for microscopic examination. Cases are accompanied by the diagnoses and other relevant written information and references. The 2018 Slide Library handout with case summaries, virtual image links, diagnoses with discussion and references will be available to download from the online handout page.

Upon completion of study, participants should be able to:

- Explain histologic diagnoses of various skin conditions, including the use of ancillary studies, where appropriate.
- Interpret histologic diagnoses of uncommon skin diseases.
- Critique cases that highlight diagnostic challenges.
- Apply morphological criteria to differential diagnoses of cutaneous lesions.
- Develop appropriate differential diagnoses for a wide spectrum of tumors and dermatoses.

Annual Membership Business Meeting

Saturday, November 10

12:15 p.m. – 1:15 p.m.

International South, 2nd Floor

ASDP members are encouraged to attend the Annual Membership Business Meeting luncheon on Saturday, Nov. 10. The annual report to the membership will be distributed to each meeting participant and outgoing volunteers will be recognized for their service and contributions to the Society.

Evening Slide Symposium Viewing

Opens Thursday, November 8, at 8 a.m.

PDR #4, 3rd Floor

The Evening Slide Symposium Viewing opens Thursday, Nov. 8, at 8 a.m., and will be open 24-hours-a-day through Sunday, Nov. 11, at 11 a.m.

View the Evening Slide Symposium cases at any time during the annual meeting and attend the Evening Slide Symposium Saturday evening.

The American Society of Dermatopathology

ASDP Employment Board

Continental Ballroom Foyer, Lobby Level

The official ASDP career center is located on the website at www.asdp.org; however, the Society has an employment board located in the Continental Ballroom foyer on the Lobby Level. Meeting registrants can post positions available or resumes for other attendees to peruse. Meeting attendees are responsible for making their own copies.

Dermatopathology Bookstore

Wednesday, November 7 – Sunday, November 11

Continental Ballroom Foyer, Lobby Level

Leading publishers in the field of dermatopathology will be selling books and other publications during the ASDP 55th Annual Meeting. Be sure to stop by and view the newest work being published! The Dermatopathology Bookstore will be open during registration hours, in the Continental Ballroom Foyer, Lobby Level.

Participating book sellers include:

Elsevier

Verlagshaus Jakomini

Wolters Kluwer

Bookstore Hours:

Wednesday, November 7

2:00 p.m. – 6:00 p.m.

Thursday, November 8

7:00 a.m. – 6:00 p.m.

Friday, November 9

6:30 a.m. – 5:00 p.m.

Saturday, November 10

6:30 a.m. – 5:00 p.m.

Sunday, November 11

6:30 a.m. – 11:00 a.m.

Faculty Disclosures of Relevant Financial Relationships

In keeping with ACCME standards, the following program faculty stated that they do not have relevant financial relationships that may have a direct bearing on the subject matter of the continuing education activity in which they are participating.

Annual Award Recipients

2018 Founders' Award

James W. Patterson, MD

*Professor Emeritus of Pathology
University of Virginia*

James W. Patterson, MD, has been a director of the American Board of Dermatology and served as its president in 2015. He has also served on the Residency Review Committees for Dermatology and Dermatopathology of the ACGME. Other notable positions that Dr. Patterson has held include presidency of the Virginia Dermatological Society and the American Society of Dermatopathology (ASDP). He is a recipient of the Walter R. Nickel Award in 2009, and was awarded Honorary Lifetime Membership in 2016. He is also a Fellow of the American College of Physicians, the American Academy of Dermatology, and the Royal Society of Medicine, and holds memberships in several other professional societies in dermatology and pathology, including the American Dermatological Association. He has authored or co-authored more than 250 scientific papers, as well as six books (most recently, *Weedon's Skin Pathology*, 4th Edition) and many book chapters. He is a past editor-in-chief and now editor emeritus of the *Journal of Cutaneous Pathology* and has been a member of the editorial boards of numerous other journals.

While in the U.S. Army, Patterson served at Keller Army Hospital at the U.S. Military Academy in West Point, New York, and then trained at the Armed Forces Institute of Pathology (AFIP) in Washington, DC, as a fellow in dermatopathology under the tutelage of Drs. Elson B. Helwig and James H. Graham. Subsequently, he served at Fitzsimmons Army Medical Center in Aurora, Colorado. During the latter appointment, he was also a clinical instructor in dermatology at the University of Colorado.

From 1996 to 2016, Patterson served as professor of pathology and dermatology and director of dermatopathology at the University of Virginia. He retired from that position in 2016 and is now Professor Emeritus of Pathology. He is a co-owner of PRW Laboratories in Charlottesville, Virginia, and works there part-time as a dermatopathologist. He remains active in teaching and writing on topics in dermatopathology.

The 2018 Founders' Award will be presented to Dr. Patterson at the Annual Society Dinner Friday, Nov. 9.

Visit www.asdp.org/foundersaward for a list of previous Founders' Award recipients.

2018 Walter R. Nickel Award

Victor G. Prieto, MD, PhD

Professor of Pathology

University of Texas MD Anderson Cancer Center

Victor G Prieto, MD, PhD, is a professor of pathology at the University of Texas MD Anderson Cancer Center, where he has been the chair of the department of pathology since 2014. He received his MD from the University of Alicante, and his PhD from the University of Barcelona, Spain. He completed residency training in pathology at the New York Hospital-Cornell Medical Center, and fellowship training in oncologic pathology at the Memorial Sloan Kettering Cancer Center and in dermatopathology at the New York Hospital-Cornell Medical Center.

Dr. Prieto spent three years as an assistant professor of pathology and dermatology at Duke University in Durham, North Carolina, and then joined the University of Texas MD Anderson Cancer Center in 1999. In addition to being chair of the department he is director of the Fellowship Program of Surgical Pathology.

His research interests are primarily in the molecular biology of melanocytic neoplasms as well as immunohistochemical analysis of cutaneous neoplasms. He is the co-director of the Pathology Core of the MDACC Skin Cancer SPORE.

Dr. Prieto is the secretary treasurer of the International Society of Dermatopathology, and is currently a member of the editorial board of the *Journal of Cutaneous Pathology*, *American Journal of Dermatopathology*, and *Annals of Diagnostic Pathology*. He is a contributor to the WHO fascicles on cutaneous neoplasms and gastrointestinal (anal) neoplasms.

The 2018 Walter R. Nickel Award will be presented to Dr. Prieto at the Annual Society Dinner Friday, Nov. 9.

Visit www.asdp.org/walternickelaward for a list of previous Walter R. Nickel Awards recipients.

The American Society of Dermatopathology (ASDP) does not endorse any medical product, treatment or service sold by any corporation supporting our organization. Corporate Partnerships are not an endorsement of a company's product or service and may not be represented by the Corporate Partner as such in any way. The use of the ASDP name and/or logo, or representation of such, without the written consent of the ASDP Executive Committee is strictly prohibited.

Program-at-a-Glance

The Plenary Program courses are open to all meeting attendees. Your full registration to the ASDP Annual Meeting includes:

- Future Directions in Dermatopathology: A Forum for Career Development
- 19th Annual Duel in Dermatopathology
- Oral Abstract Sessions 1-3
- Four Short Courses
- Hermann Pinkus Memorial Basic Science Course
- President's Address
- 2018 Elson B. Helwig Memorial Lecture
- Self-Assessment in Dermatopathology Discussion
- Fellows' Presentations
- Evening Slide Symposium
- 24-hour access to the Evening Slide Symposium Slides
- Two Poster Sessions
- 24-hour access to the Slide Library

Optional Courses & Events may require additional fees and include:

- Consultations in Dermatopathology
- Virtual Consultations in Dermatopathology
- Mini-Course – Update on Melanocytic Tumors
- Self-Assessment in Dermatopathology Slide Viewing Session A, B, C or D
- Annual Society Dinner
- Meet the Program Directors – *Residents Only*.

Noon	ASDP 55th Annual Meeting Adjourns	

MelaPro
Dx 

MelaPro Dx is a molecular profiling test used as an adjunct to histopathological examinations. It provides physicians with actionable intelligence when histopathology alone is insufficient for accurate diagnosis of melanocytic lesions.

This test will be broadly available to the dermatopathology community in late 2018. Please contact us to become an early adopter.

MelaPro[™]
Dx

The first objective proteomic test to differentiate between malignant melanomas and benign nevi

Plenary Program

Short Course I

In Vivo Histopathology Using Reflectance Confocal Microscopy

Thursday, November 8

1:00 p.m. – 3:15 p.m.

Grand Ballroom, 2nd Floor

Course Director:

Melissa Pulitzer, MD

Memorial Sloan Kettering Cancer Center

2.25 AMA PRA Category 1 CME Credits™

The use of non-invasive imaging of skin lesions has the potential to change the practice of dermatopathology by shifting the types of biopsies performed and changing workflow, including ex vivo imaging of biopsies prior to routine histologic processing, and altering billing practices for dermatopathologists who participate in this cellular-level image interpretation. This course will explore basic principles, practice integration models and impact predictions, terminology, and en face imaging features of key inflammatory and tumoral lesions diagnosed by dermatopathologists, using RCM.

Faculty and Course Outline

1:00 p.m. – 1:45 p.m.

Introduction to RCM

Jane Grant-Kels, MD

University of Connecticut Health Center

1:45 p.m. – 2:30 p.m.

RCM for Neoplastic and Inflammatory Skin Disease

Melissa Gill, MD

SkinMedical Research and Diagnostics, PLLC

2:30 p.m. – 2:50 p.m.

Great Cases

Manu Jain, MD; Jane Grant-Kels, MD;

Babar K. Rao, MD, FAAD

2:50 p.m. – 3:00 p.m.

Ex Vivo Confocal Microscopy

Manu Jain, MD

Memorial Sloan Kettering Cancer Center

3:00 p.m. – 3:15 p.m.

How the Use of RCM Affects the Practice of Dermatopathology

Babar K. Rao, MD, FAAD

Rutgers Robert Wood Johnson Medical School

MEETING PROGRAM

Upon completion of this course, participants should be able to:

- Apply various confocal technology models in dermatopathology practice to improve patient care and outcome.
- Recognize how select RCM features may affect provider's decision to perform a biopsy and improve clinicopathologic correlation.

Thursday,
November 8

ASDP Art Show

Thursday, November 8 – Sunday, November 11

Continental Ballroom Foyer, Lobby Level

The Young Physicians' Committee is sponsoring an event showcasing the artistic talents of the ASDP 55th Annual Meeting attendees. Be sure to stop by and view the exhibition. This multimedia event includes oil and acrylic paintings, watercolors, sculpture, photography, woodcarvings, ceramics, calligraphy paintings, pottery, woodcuts, wood burning and lithography.

View the artistic talents of your colleagues!

"Art evokes the mystery without which the world would not exist."

~ Rene Magritte

Plenary Program (continued)

Oral Abstract Session 1

Thursday, November 8

3:45 p.m. – 5:15 p.m.

Grand Ballroom, 2nd Floor

Course Moderator:

Doina Ivan, MD

University of Texas MD Anderson Cancer Center

1.5 AMA PRA Category 1 CME Credits™

Abstracts presented in Oral Abstract Session 1 can be found in the abstract PDF book available for download at www.asdp.org/AM18. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Time	Title	Speaker
3:45 p.m. - 3:55 p.m.	DEXH-box Helicase 34 and its Genetic Network Convey Poor Prognosis in Melanoma	Lijun Xue, MD, PhD
3:55 p.m. - 4:05 p.m.	Associations of TERT Promoter Mutations with Clinicopathologic Features in Primary Cutaneous Melanomas	Nathaniel A. Slater, MD
4:05 p.m. - 4:15 p.m.	PD-L1 and LAG-3 Expression in Advanced Cutaneous Squamous Cell Carcinomas	Sam Wu, MD
4:15 p.m. - 4:25 p.m.	Histopathologic, Immunohistochemical and Molecular Profiling of Cutaneous Squamous Cell Carcinoma in Organ Transplant Recipients: A Search for Therapeutic Targets	Aishatu Aloma, MD, MPH
4:25 p.m. - 4:35 p.m.	Haematoxylin-eosin Staining Pattern of Acral Stratum Corneum Corresponds to Cristae Profundae in the Evaluation of Acral Melanocytic Lesions	Yi A. Liu, MD

MEETING PROGRAM

4:35 p.m. - 4:45 p.m.	Comparing Imaging Mass Spectrometry and Comparative Genomic Hybridization as Ancillary Techniques in Challenging Melanocytic Neoplasms	Rossitza Z. Lazova, MD
4:45 p.m. - 4:55 p.m.	Comparison of Mycobacteria Immunostain to Traditional Acid Fast Stain	Staci A. Keene, MD
4:55 p.m. - 5:05 p.m.	Indoleamine 2,3-deoxygenase (IDO) Expression in Metastatic Melanoma	Sarah Gradecki, MD
5:05 p.m. - 5:15 p.m.	Distinguishing Histopathologic Features of Acantholytic Dermatoses and the Pattern of Acantholytic Hypergranulosis	Sharlene Helene Chua See, MD

Upon completion of this session, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

The American Society of Dermatopathology

Plenary Program (continued)

19th Annual Duel in Dermatopathology Resident Abstract Competition

Thursday, November 8

5:15 p.m. – 6:45 p.m.

Grand Ballroom, 2nd Floor

Course Moderator:

Michael T. Tetzlaff, MD, PhD

University of Texas MD Anderson Cancer Center

1.5 AMA PRA Category 1 CME Credits™

The American Society of Dermatopathology is pleased to present the 19th Annual Duel in Dermatopathology Abstract Competition for dermatology and pathology residents. This resident forum consists of succinct five-minute presentations. Prizes for first, second and third place will be awarded for the best clinical-pathologic case reports. Presentations will be evaluated on content, form, instructive value to dermatopathology and execution. Award recipients will be notified by email after the meeting. Abstracts presented in the Duel in Dermatopathology Resident Abstract Competition can be found in the abstract PDF book available for download at www.asdp.org/AM18.

Time	Title	Speaker
5:15 p.m. - 5:20 p.m.	Acral Fibroblastic Spindle Cell Neoplasm with EWSR1-SMAD3 Gene Rearrangement: A Case Report Confirming the Presence of a Rare Entity	Katelen E. Korty, DO
5:20 p.m. - 5:25 p.m.	Spontaneous Hair Repigmentation in an 80-year-old Man: A Curious Dermatologic Referral from the Hairdresser	Anh K. Pham, MD
5:25 p.m. - 5:30 p.m.	Drug Rash with Peripheral Eosinophilia and Systemic Symptoms: Beware of Systemic T-cell Atypia	Gabriel Habermehl, MD
5:30 p.m. - 5:35 p.m.	Melanoma with Sporadic BAP1 Loss: Navigating a Potential Pitfall in Borderline Melanocytic Lesions	Nicholas A. Zoumberos, MD

MEETING PROGRAM

5:35 p.m. - 5:40 p.m.	A Unique Histopathologic Presentation of STING-Associated Vasculopathy with Onset in Infancy	Isha P. Tiernan, MD
5:40 p.m. - 5:45 p.m.	The First of Its Kind: A Tale of Composite Lymphoma	Aadil Ahmed, MD
5:45 p.m. - 5:50 p.m.	The Great Mimicker: Lues Maligna in an HIV-negative Patient Presenting as Vasculitis	Anupama Parameswaran, MD
5:50 p.m. - 5:55 p.m.	Rare Case of Hybrid Peripheral Nerve Sheath Tumor with Granular Cell and Perineurioma Features	Koorosh Haghayeghi, MD, PhD
5:55 p.m. - 6:00 p.m.	Bilateral Atypical Vascular Lesion Arising in the Setting of Radiation Therapy for Head and Neck Squamous Cell Carcinoma	Shira Ronen, MD
6:00 p.m. - 6:05 p.m.	Melanoma ex BAPoma: A Novel Presentation and Showcase of Nevoid Melanoma	Tanya Greywal, MD
6:05 p.m. - 6:10 p.m.	Acneiform Primary Cutaneous CD4+ Small/Medium Pleomorphic T-Cell Lymphoproliferative Disorder: Defining an Unusual Presentation of a Rare Disease	Nicole R. Bender, MD
6:10 p.m. - 6:15 p.m.	A Case of Idiopathic Hypereosinophilic Syndrome Presenting as Retiform Purpura: Clinicopathologic Correlation of a Rare Diagnosis	Tyler Menge, MD
6:15 p.m. - 6:20 p.m.	Cutaneous Plasmacytosis and Multinucleate Cell Angiohistiocytoma in a Patient with Chronic Hepatitis B: A Fortuitous Triad?	Simon F. Roy, MD
6:20 p.m. - 6:25 p.m.	Post-Scabetic Nodules: Mimicker of Infantile Indeterminate Cell Histiocytosis and Potential Diagnostic Pitfall	Kristen N. Ruby, DO, MPH

Thursday
November 8

The American Society of Dermatopathology

Plenary Program (continued)

19th Annual Duel in Dermatopathology Resident Abstract Competition (continued)

6:25 p.m. - 6:30 p.m.	Syphilis Masquerading as Widely Metastatic Carcinoma	Kristin C. Shaw, MD
6:30 p.m. - 6:35 p.m.	A 55-year-old Woman with a Prolonged History of Acneiform Lesions Refractory to Treatment	Nan G. Ring, MD
6:35 p.m. - 6:40 p.m.	Primary Osteoma Cutis in a 15-week-old Female with a Novel Spindle Cell Population	Colleen J. Beatty, MD
6:40 p.m. - 6:45 p.m.	Cutaneous T-cell Lymphoma Arising in a Patient with Long-standing Keratosis Lichenoides Chronica	Aaron Russell, MD

Upon completion of this session, participants should be able to:

- Expand diagnostic skills by recognizing clinicopathologic entities presented via abstracts.
- Utilize and interpret diagnostic clues and techniques identified by literature review of these cases.

Congratulations to the 2018 Dermatopathology Research Career Development Award Recipients

Matthew S. Goldberg, MD

Icahn School of Medicine at Mount Sinai

Melanoma Epigenetics and the Functional Role of MacroH2A in Melanoma Progression

Maija Kiuru, MD, PhD – Year 2

Future Directions in Dermatopathology: A Forum for Career Development

Thursday, November 8

7:00 p.m. – 9:00 p.m.

Grand Ballroom, 2nd Floor

Course Directors:

Melinda R. Mohr, MD

Atlanta Dermatopathology

Michelle B. Tarbox, MD

Texas Tech University School of Medicine

2 AMA PRA Category 1 CME Credits™

All meeting attendees are invited to join us for this informative program.

This year's Future Directions in Dermatopathology session will discuss social media as a tool for career advancement, professional conduct in the workplace, ergonomics and wellness in a dermatopathology career, and work-life balance.

Faculty and Course Outline

7:00 p.m. – 7:20 p.m.	Using Social Media for Academic Promotion and Tenure Jerad M. Gardner, MD <i>University of Arkansas for Medical Sciences</i>
7:20 p.m. – 7:40 p.m.	Harassment... or Not? An Uncomfortable, Complex, and Necessary Conversation About Professional Conduct and Respect in the Workplace Jacqueline M. Junkins-Hopkins, MD <i>Ackerman Academy of Dermatopathology</i>
7:40 p.m. – 8:00 p.m.	Incorporating Wellness in Your Pathology Practice Annie O. Morrison, MD <i>Yellowstone Pathology</i>
8:00 p.m. – 8:20 p.m.	Work-Life Balance: Getting the Big Decisions Right Thomas N. Helm, MD <i>State University of New York at Buffalo</i>
8:20 p.m. – 8:55 p.m.	Q&A Forum
8:55 p.m. – 9:00 p.m.	Closing Remarks

The American Society of Dermatopathology

Plenary Program (continued)

Future Directions in Dermatopathology: A Forum for Career Development (continued)

Upon completion of this session, participants should be able to:

- Utilize various social media platforms to further career development.
- Apply appropriate tools and skills to achieve work-life balance throughout their chosen career path.
- Recognize unprofessional behavior and influence change in the workplace.
- Apply proper ergonomics and other wellness strategies to daily dermatopathology practice.
- Implement self-care skills to maintain optimal health resulting in increased diagnostic accuracy and improved patient outcomes.

8th Annual Young Physicians' Reception

Thursday, November 8

9:00 p.m. – 11:00 p.m.

Normandie Lounge, 2nd Floor

Dermatology and pathology residents, dermatopathology fellows and dermatopathologists in their first seven years of practice are invited to network with the Future Directions in Dermatopathology faculty members and other dermatopathology role models at the Young Physicians' Reception. Hors d'oeuvres and refreshments will be served. Don't miss this unique opportunity to develop professional relationships with your leaders and peers.

Short Course II

What's New in Dermatopathology: Politics, Policy and Guidelines

Friday, November 9

8:00 a.m. – Noon

Grand Ballroom, 2nd Floor

Course Director:

Melissa P. Piliang, MD

Cleveland Clinic

3.5 AMA PRA Category 1 CME Credits™

Medicine is an ever-changing arena and ASDP is emerging as a leader in the areas of advocacy, policy and guideline development as it relates to dermatopathology. This course will provide a fast-paced overview of new ASDP initiatives and updates on guidelines relevant to the dermatopathologist. An emphasis will be placed on making sense of the alphabet soup of AMA, RUC, CPT, AUC and AJCC and highlighting the relevance of these to the dermatopathologist.

Faculty and Course Outline

8:00 a.m. – 9:10 a.m. ASDP at the AMA: An Advocacy Primer

8:00 a.m. – 8:20 a.m. **ASDP at the House of Delegates**

Melissa P. Piliang, MD
Cleveland Clinic

8:20 a.m. – 8:40 a.m. **ASDP at the RVS Update Committee (RUC)**

Adam I. Rubin, MD
University of Pennsylvania

8:40 a.m. – 9:00 a.m. **ASDP at CPT**

Jonathan S. Ralston, MD
Ralph H. Johnson Veterans Affairs Medical Center

9:00 a.m. – 9:10 a.m. **Questions to the Panel**

9:10 a.m. – 9:45 a.m. Journal of Cutaneous Pathology: Updates & Highlights

Christopher R. Shea, MD
University of Chicago

9:45 a.m. – 10:15 a.m. Refreshment Break

10:15 a.m. – 10:45 a.m. AJCC 8th Edition – Update for the Dermatopathologist

Michael T. Tetzlaff, MD, PhD
University of Texas MD Anderson Cancer Center

Friday,
November 9

The American Society of Dermatopathology

Plenary Program (continued)

Short Course II

What's New in Dermatopathology: Politics, Policy and Guidelines

(continued)

10:45 a.m. – 11:45 a.m.	Appropriate Use Criteria: Initial Recommendations from the ASDP
10:45 a.m. – 10:55 a.m.	Overview of the AUC Process and Appropriateness Rating M. Yadira Hurley, MD <i>Saint Louis University</i>
10:55 a.m. – 11:00 a.m.	Perspectives from a Panel Rater Maxwell A. Fung, MD <i>University of California, Davis</i>
11:00 a.m. – 11:10 a.m.	Highlights of AUC for HPV and MTS Ancillary Studies Claudia I. Vidal, MD, PhD <i>Saint Louis University</i>
11:10 a.m. – 11:20 a.m.	Highlights of AUC for Lymphoproliferative Ancillary Studies Uma N. Sundram, MD <i>Oakland University William Beaumont School of Medicine</i>
11:20 a.m. – 11:30 a.m.	Highlights of AUC for Melanocytic Ancillary Studies (CGH, FISH, qRT- PCR) Aleodor A. Andea, MD, MBA <i>University of Michigan</i>
11:30 a.m. – 11:45 a.m.	Highlights of AUC for Soft Tissue Ancillary Studies (CCS and DFSP) Konstantinos D. Linos, MD <i>Geisel School of Medicine at Dartmouth</i>
11:45 a.m. - Noon	Questions to the Panel

Upon completion of this course, participants should be able to:

- Recognize the importance of organized medicine for dermatopathologists.
- Apply the updated AJCC criteria to clinical practice to provide the most up-to-date staging criteria.
- Describe the AUC process and how to incorporate the recommendations into practice.
- Use guidelines in dermatopathology to engage providers and patients in a discussion of patient care that is supported by evidence, free from harm, and truly necessary.

Hermann Pinkus Memorial Basic Science Course

Friday, November 9

4:30 p.m. – 6:45 p.m.

Grand Ballroom, 2nd Floor

Course Director:

Jon A. Reed, MD

Baylor College of Medicine and CellNetix Pathology & Laboratories

2.25 AMA PRA Category 1 CME Credits™

This year's Hermann Pinkus Memorial Basic Science Course will explore new technologies and emerging concepts that can help guide diagnoses and therapies and improve our understanding of the basic mechanisms involved in cutaneous diseases. The course will cover the novel use of in vivo and in vitro confocal microscopy and powerful newer molecular genetics tools, such as next generation sequencing. The course also will address recent developments in the emerging concepts of human microbiome and tumor microenvironment.

Faculty and Course Outline

Microbiome of Healthy Skin and Atopic Dermatitis

Heidi Kong, MD, MHSc

National Institutes of Health

**Understanding the Biological Complexity of Skin Cancers –
What Does it Mean?**

John T. Seykora, MD, PhD

University of Pennsylvania

**Optical Imaging Technologies for Noninvasive Detection of Skin Cancer:
A Review and Critique**

Milind M. Rajadhyaksha, PhD

Memorial Sloan Kettering Cancer Center

**Melanoma Immunotherapy Response and the Microbiome:
Is There a Cause Driving the Association?**

Alexander J.F. Lazar, MD, PhD

University of Texas MD Anderson Cancer Center

Upon completion of this course, participants should be able to:

- Identify and describe new technologies and emerging concepts that can help guide diagnoses and treatments, and improve understanding of the basic mechanisms of cutaneous diseases.
- Demonstrate greater understanding of diverse roles of the human microbiome in healthy skin, atopic dermatitis and tumor biology.

Friday,
November 9

Plenary Program (continued)

Short Course III

Common Quandaries: How Do Your Diagnoses and Approaches Compare with the Audience and the Expert Panel?

With Audience Response System

Saturday, November 10

8:00 a.m. – Noon

Grand Ballroom, 2nd Floor

Course Directors:

Catherine G. Chung, MD

Ohio State University Wexner Medical Center

Thomas N. Helm, MD

State University of New York at Buffalo

3.25 AMA PRA Category 1 CME Credits™

This year's course will simulate an atmosphere of a professor's sign-out with his/her students by allowing attendees to compare their diagnoses and approaches to challenging and/or ambiguous cases with those of the panelists.

Topics discussed will include:

- Optimal terminology for reporting of margins – e.g., how do you handle the reporting of an infiltrative basal cell carcinoma that extends to within 0.2 mm of the examined inked margin? – (recommend re-excision, report distance to margin, etc.)
- Optimal terminology for histologically ambiguous lesions – e.g., what is your diagnosis for "SK versus condyloma" in the genital region? What additional factors do you take into consideration?
- Trigger points that prompt a diagnosis of squamous cell carcinoma rather than actinic keratosis, melanoma in situ vs. other types of melanocytic proliferation.
- When to request FISH and genomic studies in the setting of histologically ambiguous melanocytic neoplasia.
- How to best handle an inadequate specimen in a variety of situations.
- Explore optimal work up for lymphocytic infiltrates when lymphoproliferative disease is a consideration.
- And many other everyday situations.

MEETING PROGRAM

Faculty

Clay J. Cockerell, MD
*Cockerell Dermatopathology and University of Texas Southwestern
Medical Center*

Dirk M. Elston, MD
Medical University of South Carolina

Jerad M. Gardner, MD
University of Arkansas Medical Sciences

Philip E. LeBoit, MD
University of California, San Francisco

Lori Lowe, MD
University of Michigan

Timothy H. McCalmont, MD
University of California, San Francisco

Jennifer M. McNiff, MD
Yale University

Ronald P. Rapini, MD
University of Texas Houston Medical School

Upon completion of this course, participants should be able to:

- Identify and address professional practice gaps in the handling of routine cases.
- Demonstrate greater understanding and increased diagnostic accuracy of challenging and/or ambiguous cases.

The American Society of Dermatopathology

Plenary Program (continued)

Fellows' Presentations

Saturday, November 10

1:20 p.m. – 3:20 p.m.

Grand Ballroom, 2nd Floor

Course Moderator:

Christine J. Ko, MD

Yale University

2 AMA PRA Category 1 CME Credits™

The Continuing Education and Research Committee has selected 18 of the outstanding submissions in the Fellows in Dermatopathology abstract category to be presented orally. This abstract session will have a mix of case reports, clinical studies and basic science presentations. Fellows are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting. Abstracts presented in the Fellows' Presentations can be found in the abstract PDF book available for download at www.asdp.org/AM18.

Time	Title	Speaker
1:20 p.m. – 1:25 p.m.	Multiple Primary Amelanotic Spitzoid Melanomas in the Same Patient: Report of a Case with Novel Germline BRIP1 Missense Mutation and Familial CDKN2A Mutation	Carly Elston, MD
1:25 p.m. – 1:30 p.m.	Cutaneous CIC-Rearranged Undifferentiated Round Cell Sarcoma: A Case Report of an Unusual Variant	Stephen M. Smith, MD
1:30 p.m. – 1:35 p.m.	CD68 and Myeloperoxidase Co-expression in Kikuchi-Fujimoto Disease	Erin E. Williams, MD
1:35 p.m. – 1:40 p.m.	Mammary Analogue Secretory Carcinoma with ETV6 Gene Rearrangement Arising in the Vulva	Kabeer Shah, DO
1:40 p.m. – 1:45 p.m.	GOPC-ROS1 Fusion in an Agminated Spitz Nevus	Mary-Katharine Collins, MD
1:45 p.m. – 1:50 p.m.	Alveolar Rhabdomyosarcoma Mimicking Merkel Cell Carcinoma	Anthony P. Martinez, MD

MEETING PROGRAM

1:50 p.m. – 1:55 p.m.	Merkel Cell Carcinoma Diagnosis by FLOW Cytometry	David P. Wang, MD
1:55 p.m. – 2:00 p.m.	Crystal-Storing Histiocytosis	Bethany R. Rohr, MD
2:00 p.m. – 2:05 p.m.	Agminated Cellular Neurothekeomas of the Hands, a Unique Clinical Presentation of a Rare Entity	Gregory Cheeney, DO
2:05 p.m. – 2:10 p.m.	An Unusual Presentation of Kikuchi Lymphadenitis with Circulating Pleomorphic Cells	Greg Gates, DO
2:10 p.m. – 2:15 p.m.	The Evolving Morphologic Spectrum of BAP1 Inactivated Melanocytic Tumors: When Should Immunohistochemical Testing Be Initiated	Sihem Khelifa, MD
2:15 p.m. – 2:20 p.m.	Eosinophilic Pustular Folliculitis in an Immunodeficient Patient with Hematopoietic Stem Cell Transplant for Multiple Myeloma	Abha Soni, DO, MPH
2:20 p.m. – 2:30 p.m.	Immunohistochemical Expression of p53 and p16 Identifies Different Carcinogenic Pathways in Vulvar Squamous Cell Carcinoma	Dinesh Pradhan, MD
2:30 p.m. – 2:40 p.m.	Prognostic Significance of "Non-solid" Microscopic Metastasis in Merkel Cell Carcinoma Sentinel Lymph Nodes	Emily M. Erstine, MD, MBA
2:40 p.m. – 2:50 p.m.	Beyond PD-L1: The Immune Checkpoint LAG-3 and Its Ligand GAL-3 in Vulvar Squamous Neoplasia	Margaret Cocks, MD, PhD
2:50 p.m. – 3:00 p.m.	CRTC1-TRIM11 Fusion Defined Melanocytic Tumors: A Series of Four Cases	Lin Wang, MD
3:00 p.m. – 3:10 p.m.	The Genomic Landscape of Spindle Cell and Desmoplastic Melanoma	Sophia Ma, MD
3:10 p.m. – 3:20 p.m.	Granulomatous Lichen Sclerosus	Ifeoma U. Perkins, MD

Saturday,
November 10

Plenary Program (continued)

Fellows' Presentations (continued)

Upon completion of this session, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote the exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Oral Abstract Session 2

Saturday, November 10

3:45 p.m. – 4:45 p.m.

Grand Ballroom, 2nd Floor

Course Moderator:

Jennifer M. McNiff, MD

Yale University

1 AMA PRA Category 1 CME Credits™

Abstracts presented in Oral Abstract Session 2 can be found in the abstract PDF book available for download at www.asdp.org/AM18. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Time	Title	Speaker
3:45 p.m. – 3:55 p.m.	Histopathologic Features of Immune-Mediated Melanoma Regression in Patients Treated with anti-PD-1	Julie E. Stein, MD
3:55 p.m. – 4:05 p.m.	Eccrine Duct Dilation in Neutrophilic Scarring Alopecias	Erin Jane L. Tababa, MD
4:05 p.m. – 4:15 p.m.	P16 Range of Expression in Benign Epithelioid and Spindled Nevi and Melanoma	Gabriel Oaxaca, MD
4:15 p.m. – 4:25 p.m.	Cutaneous Macroglobulinosis as a Clue to the Diagnosis of Waldenstrom Macroglobulinemia	Robert Schnietz, MD
4:25 p.m. – 4:35 p.m.	Investigating the Histological Findings and Pathologic Diagnosis for Rickettsialpox Infection in Skin Biopsies: A Case Series and Review of the Literature	Nikki S. Vyas, MD
4:35 p.m. – 4:45 p.m.	Performance of a Prognostic 31-gene Expression Profile Test Across Melanoma Tissue Sources	Sarah Estrada, MD, FCAP

Upon completion of this session, participants should be able to:

- ➔ Identify various clinical and basic science topics within dermatopathology.
- ➔ Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- ➔ Describe innovative investigative studies and tools pertaining to bench and translational research.
- ➔ Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Saturday, November 10

Plenary Program (continued)

2018 President's Address

Saturday, November 10

4:45 p.m. - 5:15 p.m.

Grand Ballroom, 2nd Floor

.5 AMA PRA Category 1 CME Credit™

Michael G. Hitchcock, MBChB, MBA

President, American Society of Dermatopathology

From Rods and Cones to Diagnosis – What Could Possibly Go Wrogn?

This year's President's Address will consider what is known about how our brains process visual inputs to formulate histologic diagnoses. Examples will illustrate how we unconsciously filter masses of inbound data, at times making shortcuts that bypass key diagnostic clues while philosophy fills the gaps in the science. The objective of the talk is to share knowledge about the instrument that we rely on most in our work, the gold standard of diagnostic equipment, the brain.

Upon completion of this lecture, participants should be able to:

- Recognize the limitations of what we know about how our brains formulate diagnoses and cognitive factors that may contribute to case misdiagnosis.
- Improve diagnostic accuracy by identifying the strengths and circumventing weaknesses of our cerebral diagnostic mechanisms.

2018 Elson B. Helwig Memorial Lecture

Saturday, November 10

5:15 p.m. – 6:15 p.m.

Grand Ballroom, 2nd Floor

1 AMA PRA Category 1 CME Credits™

The Elson B. Helwig Memorial lectureship is awarded in recognition of excellence in the realm of diagnostic dermatopathology and for significant contribution to the dermatopathology literature and the education of fellows and colleagues.

James W. Patterson, MD

Professor Emeritus of Pathology
University of Virginia

Problematic Dermatopathology: What the Textbooks Don't Teach

The challenges presented by dermatopathology are not always in the realm of straightforward differential diagnosis. Mixed-up specimens, misleading clinical information, deficiencies in specimens or the manner in which they are handled, and confounding historical and laboratory data occur all too frequently. This lecture will consider each of these and their significant impact on decision-making and patient care.

Upon completion of this course, participants should be able to:

- Recognize and circumvent various factors that can complicate seemingly straightforward cases.
- Implement process improvements to address practice gaps, improving diagnostic accuracy and patient outcomes.

Plenary Program (continued)

Evening Slide Symposium

With Audience Response System

Saturday, November 10

7:30 p.m. – 9:30 p.m.

Grand Ballroom, 2nd Floor

Course Director:

Jon A. Reed, MD

Baylor College of Medicine and CellNetix Pathology & Laboratories

2 AMA PRA Category 1 CME Credits™

In this traditionally popular symposium, a five-member panel will present 15 microscopically challenging cases. An in-depth discussion by the panel will focus on the histological and clinicopathological aspects of each case. A relaxed and educationally stimulating atmosphere is planned. Audience participation is encouraged and casual attire is expected.

Faculty

Kiran Motaparathi, MD

University of Florida College of Medicine

Priyadharsini Nagarajan, MD, PhD

University of Texas MD Anderson Cancer Center

Karl M. Napekoski, MD

Laboratory and Pathology Diagnostics, LLC

Christopher R. Shea, MD

University of Chicago

Michi Shinohara, MD

University of Washington

Upon completion of this course, participants should be able to:

- Differentiate clinical and histological features of interesting, complex, difficult and rare disorders of the skin.
- Demonstrate an approach toward diagnosis of complex, challenging skin biopsies.
- Recognize important features of challenging cases and generate clinically relevant differential diagnoses.

Evening Slide Symposium Case Summaries

Case 1

A 55-year-old woman presents with a 6-year history of keratoderma, most prominent over marginal palms and junction of dorsal and palmar skin.

Case 2

A 39-year-old African-American female presents with hypopigmented macules on the face, neck, trunk and extremities, present since adolescence.

Case 3

A 67-year-old man presents with a 3-month history of a solitary, enlarging 6-mm pigmented macule with erythematous halo on the back.

Case 4

A 62-year-old man presents with left lower leg mass, which has been present for a couple of years. Patient now experiencing tenderness in the area. Physical exam reveals a 1.5-cm mass that is mildly tender to palpation.

Case 5

A 75-year-old woman presents with an approximately 2-cm firm nodule on the left abdomen that rubs against the waist of her pants.

Case 6

A 64-year-old woman who noticed a pea-sized subcutaneous lesion on her abdomen three years ago. The lesion slowly grew in size and eroded the overlying skin. She now presents to the general surgeon with an 8-cm ulcerated mass.

Case 7

A 58-year-old man 18 months s/p renal transplant with headaches and tender skin lesions on abdomen and buttocks.

Case 8

A 57-year-old man with 30 lb. weight loss, malaise, fatigue, and an enlarging plaque on the left ankle.

Case 9

A 64-year-old man with myelodysplastic syndrome and recurrent crops of tender, erythematous plaques and nodules.

Case 10

A 81-year-old woman with history of hip replacement surgery 9 years ago and acral lentiginous melanoma with inguinal nodal metastasis 1 year ago was treated with nivolumab with partial clinical response. Provided is one of the inguinal lymph nodes.

Plenary Program (continued)

Evening Slide Symposium Case Summaries (continued)

Case 11

A 71-year-old man with squamous cell carcinoma of the scalp presented for surgical resection. Provided is one of the circumferential en-face margins.

Case 12

A 14-year-old boy with personal history of mycosis fungoides currently in remission, presented with 10-day history of left medial thigh tenderness and induration. Provided are skin and needle core biopsies of left thigh.

Case 13

A 53-year-old man presented with a 30-year history of a plaque on the left lower abdomen.

Case 14

A 67-year-old man presented with a < 1-year history of a 4-mm medium-brown macule with feathered borders and irregular shape on the left forearm

Case 15

A 73-year-old man presented with a history of a nodule on the right lower extremity, of uncertain duration.

MEETING PROGRAM

Oral Abstract Session 3

Sunday, November 11

7:30 a.m. – 8:30 a.m.

Grand Ballroom, 2nd Floor

Course Moderator:

Alina G. Bridges, DO

Mayo Clinic, Rochester

1 AMA PRA Category 1 CME Credits™

Abstracts presented in Oral Abstract Session 3 can be found in the abstract PDF book available for download at www.asdp.org/AM18. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Time	Title	Speaker
7:30 a.m. - 7:40 a.m.	The Role of Histone Protein H1.5 in Melanoma Progression: An Immunohistochemical Study	Roya S. Nazarian, BA
7:40 a.m. - 7:50 a.m.	Is Subungual Location a Prognostic Factor for Acral Lentiginous Melanoma?	Phyu P. Aung, MD, PhD
7:50 a.m. - 8:00 a.m.	The Role of TERT Promoter Mutations in Differentiating Recurrent Nevi From Recurrent Melanomas: A Retrospective, Case-control Study	Victor L. Quan, BA
8:00 a.m. - 8:10 a.m.	Follicular Mucinosis is Often Unrelated to Cutaneous T-cell Lymphoma: A Clinicopathologic Study Assessing 93 Patients Seen at a Cancer Center	Shamir Geller, MD
8:10 a.m. - 8:20 a.m.	Cutaneous Collagenous Vasculopathy: A Single Institution Series	W. Phillip Moss, MD
8:20 a.m. - 8:30 a.m.	IL4 and IL31 Receptor Expression in Dermal Hypersensitivity Reaction (DHR): Implications for Therapy and Pathogenesis Based on Comprehensive Analysis of 212 Patients	Thinh Q. Chau, BS

Sunday,
November 11

Plenary Program (continued)

Oral Abstract Session 3 (continued)

Upon completion of these sessions, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Short Course IV
B-cell Lymphomas and Lymphoproliferative Disorders

Sunday, November 11

8:30 a.m. – Noon

Grand Ballroom, 2nd Floor

Course Director:

Melissa Pulitzer, MD

Memorial Sloan Kettering Cancer Center

3.25 AMA PRA Category 1 CME Credits™

B-cell lymphoproliferative processes in the skin represent a diverse group of diseases, ranging from benign reactive infiltrates to high-grade malignancies. Although the features of B-cell malignancies can be diagnostic and straightforward, there are a number of potential pitfalls in the interpretation of B-cell infiltrates due to patient-related, disease-related and procedure-related factors. This course will address both clear-cut and difficult diagnostic entities. Specifically, well-characterized low-grade B-cell neoplasms, cutaneous involvement by extracutaneous or cutaneous B-cell lymphoma/leukemia and viral-related lymphoproliferative disease will be reviewed. Diagnostic foils in the evaluation of B-cell proliferations, including reactive or partially reactive processes and difficult immunophenotypic challenge will be discussed. Special attention will be given to immunophenotypic clues in teasing out complex proliferations.

Faculty and Course Outline

8:30 a.m. – 8:40 a.m.	Introduction to B cells in Skin Melissa Pulitzer, MD <i>Memorial Sloan Kettering Cancer Center</i>
8:40 a.m. – 9:05 a.m.	Non-malignant B-cell Proliferations in Skin Conditions Alejandro A. Gru, MD <i>University of Virginia</i>
9:05 a.m. – 9:30 a.m.	Mature B-cell Neoplasia Carlos A. Torres-Cabala, MD <i>University of Texas MD Anderson Cancer Center</i>
9:30 a.m. – 9:55 a.m.	Low-Grade Primary Cutaneous B-cell Lymphoma; Classic Dogma Laura B. Pincus, MD <i>University of California, San Francisco</i>

Sunday,
November 11

Plenary Program (continued)

Short Course IV

B-cell Lymphomas and Lymphoproliferative Disorders

(continued)

9:55 a.m. – 10:15 a.m.	Challenges and Pitfalls in Low-Grade Primary Cutaneous B-cell Lymphoma Antonio Subtil, MD, MBA <i>Royal Jubilee Hospital, Victoria</i>
10:15 a.m. – 10:30 a.m.	Refreshment Break
10:30 a.m. – 10:50 a.m.	Plasmacytic Cutaneous Pathology Noreen M.G. Walsh, MD <i>Dalhousie University, Halifax</i>
10:50 a.m. – 11:15 a.m.	Diffuse Large B-cell Lymphoma Christiane Querfeld, MD, PhD <i>City of Hope National Medical Center</i>
11:15 a.m. – 11:45 a.m.	Viral Associated B-cell Lymphoproliferative Disease Joan Guitart, MD <i>Northwestern Medical Faculty Foundation, Inc.</i>
11:45 a.m. – Noon	Rare Primary and Secondary B-cell Lymphomas Lyn M. Duncan, MD <i>Harvard Medical School and Massachusetts General Hospital</i>

Upon completion of this course, participants should be able to:

- Recognize important features of conditions in which non-neoplastic B-cell aggregates may be present in skin disease, their differential diagnoses and diagnostic pitfalls.
- Apply improved diagnostic accuracy to virus-related B-cell lymphoproliferative disease.
- Utilize immunophenotypic tools to determine whether a B-cell infiltrate is neoplastic or reactive.
- Identify key features of concern for aggressive B-cell leukemia/lymphoma in skin biopsies.
- Use improved diagnostic accuracy to assist clinicians in optimal patient care.

Optional Courses & Events

Consultations in Dermatopathology

1.25 AMA PRA Category 1 CME Credits™ per session

Tickets are required to enter each session.

All Consultations in Dermatopathology rooms are located on the 3rd floor.

All sessions use a 10-headed microscope with a class size of nine. Generally, each session permits 30 minutes of study at individual microscopes followed by 45 minutes of interactive work with the session director.

Thursday, November 8

9:00 a.m. – 10:15 a.m.

Mini-Course Update on Melanocytic Tumors

Thursday, November 8

8:30 a.m. - Noon

Grand Ballroom, 2nd Floor

3.25 AMA PRA Category 1 CME Credits™

Course Director:

Klaus J. Busam, MD

Memorial Sloan Kettering Cancer Center

This year's mini-course will provide updates on melanoma staging from the 8th edition of the AJCC staging system and the new WHO classification of melanocytic tumors. The value, limitations and pitfalls of various ancillary methods for the diagnosis of melanoma, including novel immunohistochemical markers, molecular and cytogenetic tests will also be discussed. Each presented case will include appropriate use, potential added value as well as false-positive and negative test results.

Faculty and Course Outline

8:30 a.m. - 8:45 a.m.	8th Edition AJCC Melanoma Staging Alexander J.F. Lazar, MD, PhD <i>University of Texas MD Anderson Cancer Center</i>
8:45 a.m. - 9:00 a.m.	New WHO Classification of Melanocytic Tumors David E. Elder, MD <i>University of Pennsylvania</i>
9:00 a.m. - 9:15 a.m.	Melanocytic Tumors Associated with Germline Mutations Maija Kiuru, MD, PhD <i>University of California, Davis</i>
9:15 a.m. - 9:30 a.m.	Melanomas Colliding with Other Tumors Patrick O. Emanuel, MBChB, Dip Arts <i>Clinica Ricardo Palma, Lima</i>
9:30 a.m. - 9:45 a.m.	Update on Pigmented Epithelioid Melanocytoma Artur Zembowicz, MD, PhD <i>Tufts Medical School/Dermatopathology Consultations, LLC</i>
9:45 a.m. - 10:00 a.m.	Practical Considerations and Pitfalls in Stage III Melanoma of Head and Neck Lori Lowe, MD <i>University of Michigan</i>

Optional Courses & Events (continued)

Mini-Course: Update on Melanocytic Tumors (continued)

10:00 a.m. - 10:15 a.m.	Q & A
10:15 a.m. - 10:30 a.m.	Refreshment Break
10:30 a.m. - 10:45 a.m.	Dermoscopic and Molecular Correlations in the Diagnosis of Atypical Spitzoid Neoplasms Pedram Gerami, MD <i>Northwestern University Medical Center</i>
10:45 a.m. - 11:00 a.m.	Pediatric Melanoma Armita Bahrami, MD <i>St. Jude Children's Research Hospital</i>
11:00 a.m. - 11:15 a.m.	Neoadjuvant Therapy in Melanoma: Specimen Handling and Pathologic Patterns of Response Michael T. Tetzlaff, MD, PhD <i>University of Texas MD Anderson Cancer Center</i>
11:15 a.m. - 11:30 a.m.	Deep Penetrating Nevi Iwei Yeh, MD, PhD <i>University of California, San Francisco</i>
11:30 a.m. - 11:45 a.m.	PRAME Expression in Melanocytic Tumors Cecilia Lezcano, MD <i>Memorial Sloan Kettering Cancer Center</i>
11:45 a.m. - Noon	Q & A

Upon completion of this course, participants should be able to:

- Identify histopathologic parameters of staging primary and metastatic cutaneous melanoma according to the 8th edition of AJCC.
- Demonstrate greater understanding of pathomechanistic basis of the new WHO classification of melanocytic tumors and the proposed new nomenclature.
- Expand diagnostic skills with help of novel biologic advances of melanocytic tumors relevant for diagnosis.
- Recognize the value and limitations of molecular techniques and immunohistochemical markers for the diagnosis of melanocytic tumors.

Self-Assessment in Dermatopathology

Course Director:

Beth S. Ruben, MD

Palo Alto Medical Foundation

10.75 AMA PRA Category 1 CME Credits™

10.75 SAMs

100 MOC SA Question Credits

Be on time – Self-Assessment slide viewing sessions begin on time. Due to the timed schedule of each session, doors will close promptly at start time. Late arrivals will not be permitted. No refunds will be given for sessions missed due to tardiness. No exceptions.

Back by popular demand! All meeting attendees are invited to attend the Self-Assessment Discussion and are eligible to receive up to 2.25 AMA PRA Category 1 Credits™ for the activity. Participants who register and pay for Self-Assessment Sessions A, B, C or D will also participate in one of four identical slide viewing sessions and are eligible for up to 10.75 AMA PRA Category 1 Credits™.

Registered and paid participants will have the opportunity to study 50 challenging slides representing a wide range of inflammatory and neoplastic diseases during one of four identical sessions (A, B, C or D). Separate tickets are required to enter each slide viewing session. Afterward, all meeting participants will meet in a single Self-Assessment Discussion session in which faculty members will review the diagnostic features of each case, as well as the differential diagnosis.

Course handouts - The *Self-Assessment Case Answers and Discussions – Part 1 PDF* handout consists of the 50 cases discussed at the meeting and will be available online to all annual meeting attendees on the annual meeting handout page upon conclusion of the last slide viewing session. The *Self-Assessment Case Answers and Discussions – Part 2 PDF* handout consists of the 25 core knowledge cases and will be available online only as part of the post-course self-assessment. Only registered and paid attendees will have access to the Part 2 PDF handout and the post-course online self-assessment. The *Self-Assessment Slide Viewing Questions* book will continue to be distributed prior to each slide viewing session.

Post-course online self-assessment – A post-course online self-assessment will be available after the meeting and will include 25 core knowledge cases in addition to the 50 advanced cases studied at the meeting. You must register and pay for the Self-Assessment Course to receive access to the post-course online self-assessment and the *Self-Assessment Case Answers and Discussions – Part 2 PDF* handout. Self-assessment registrants will receive a link to the post-

Optional Courses & Events (continued)

Self-Assessment in Dermatopathology (continued)

course online self-assessment by email after the Self-Assessment Discussion on Friday afternoon of the Annual Meeting and will have up to 30 days to complete the activity. Self-Assessment registrants must take the post-course online self-assessment to receive MOC credit for this activity.

CME – Participants will receive 2 *AMA PRA Category 1 Credits™* for one of the Self-Assessments A-D, 2.25 *AMA PRA Category 1 Credits™* for the Self-Assessment Discussion and 6.5 *Category 1 CME Credits™* for completion of the post-course online self-assessment for a total of 10.75 *Category 1 CME Credits™*. Participants must complete the post-course online self-assessment in order to claim the remaining CME credit. A CME certificate will be available to print after completing the meeting evaluation online.

MOC/CC – The ASDP Annual Meeting post-course online self-assessment offers MOC self-assessment credits to satisfy the American Board of Dermatology (ABD) Component 2 and Continuing Certification (CC) credits to satisfy the American Board of Pathology (ABP) CC requirements. A MOC/CC certificate will be available to print upon successful completion of the post-course online self-assessment.

ABD SAs – The ASDP has been approved by the American Board of Dermatology (ABD) to produce Self-Assessment (SA) activities to satisfy the ABD Maintenance of Certification program Component 2. SA activities are intended to be of value to the practicing dermatologist. ASDP is solely responsible for the content. The ASDP Self-Assessment in Dermatopathology offers up to 100 MOC SA question credits. Participants must take the post-course online self-assessment in order to claim SA points.

ABP SAMs – ASDP is a provider of Self-Assessment Modules (SAMs) for Part II of the Continuing Certification Program of the American Board of Pathology (ABP). The ASDP Self-Assessment in Dermatopathology offers 10.75 SAMs. Participants must take and pass the post-course online self-assessment with a score of 60 percent or better in order to claim SAMs, and may take the self-assessment as many times as needed to achieve a passing score.

Schedule

Thursday, November 8

1:00 p.m. – 3:00 p.m.

Session A

(Note: This session conflicts
with Consultations 106, 107,
108, 109, 110 and 111)

*Williford B/C,
3rd Floor*

4:00 p.m. – 6:00 p.m.

Session B

(Note: This session conflicts
with Consultations 112, 113 and 114)

*Williford B/C,
3rd Floor*

Friday, November 9

7:00 a.m. – 9:00 a.m.

Session C

(Note: This session conflicts
with Consultations 200, 201,
202, 203, 204, 205 and Virtual Consultation 1)

*Williford B/C,
3rd Floor*

10:00 a.m. – Noon

Session D

(Note: This session conflicts
with Consultations 206, 207,
208 and Virtual Consultation 2)

*Williford B/C,
3rd Floor*

Optional Courses & Events (continued)

Self-Assessment in Dermatopathology (continued)

1:30 p.m. – 3:45 p.m.	Self-Assessment Discussion (Note: This session conflicts with Consultations 209, 210, 211, 212, 213, 214 and Virtual Consultations 3 and 4)	<i>Grand Ballroom, 2nd Floor</i>
-----------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------

Upon completion of this course, participants should be able to:

- Recognize key light microscopic features of common, rare and unusual entities.
- Differentiate between diseases with similar or overlapping histopathologic findings.
- Apply new diagnostic skills to a variety of skin conditions that will improve patient care.
- Incorporate new information gained from the presented cases into dermatopathology practice.
- Positively affect patient care with enhanced diagnostic skills in the more common cases likely to be seen in daily practice.
- Recognize areas where new information gained from the presented cases has identified potential practice gaps and changed performance related to the presented cases.

54th Annual Meeting Physician-in-Training Award Recipients

Poster Abstract Presentations

Hong Jiang, MD

Branched DNA Detection of Merkel Cell Polyomavirus in Merkel Cell Carcinoma

Robert F. Moore, MD

Endocrine Mucin-producing Sweat Gland Carcinoma:
A Study of Eleven Cases with Molecular Analysis

Shyam Raghavan, MD

CD30 and Ki67 in the Diagnosis of Mycosis Fungoides with Large Cell Transformation

MEETING PROGRAM

Annual Society Dinner

Friday, November 9

7:30 p.m. – 11:00 p.m.

Blackstone Hotel

Crystal Ballroom, Ballroom Level
636 South Michigan Avenue
Chicago, IL 60605

Michael G. Hitchcock, MBChB, MBA

President, American Society of Dermatopathology

Come together with friends and colleagues!

Join the ASDP President Michael G. Hitchcock, MBChB, MBA, for the Annual Society Dinner. Attend the cocktail hour before dinner where you will rub elbows with the leaders in dermatopathology and reconnect with friends and colleagues. An outstanding dinner follows, giving you the chance to relax and chat. The evening culminates in the award ceremony, where the recipients of the 2018 Founders' Award and Nickel Award will be honored. These are reasons why the ASDP Annual Society Dinner is one of the most popular events at the annual meeting.

The Blackstone is conveniently located across the street from the Hilton Chicago. Exit the Hilton Balboa street door and the Blackstone hotel is located directly across the street.

Tickets may still be available. Stop by the ASDP Registration Desk to find out.

Optional
Courses
& Events

Optional Courses & Events (continued)

Meet the Program Directors

Saturday, November 10

6:45 a.m. – 8:00 a.m.

International South, 2nd Floor

Are you a dermatology or pathology resident and thinking of applying for a dermatopathology fellowship?

During this session, trainees will have an opportunity to meet program directors from across the country. Participants will move from table to table in a speed networking format, allowing all attendees to get face time with multiple program directors. Attend this session and enjoy your morning coffee with your future program director.

This session is open to dermatology and pathology residents only. There's no fee to attend, but registration is required.

MEETING PROGRAM

CME Tracker

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. ASDP designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**This form is for your personal tracking only.
All CME claims are completed online.**
