

Do you know your melanoma patient's individual recurrence risk?

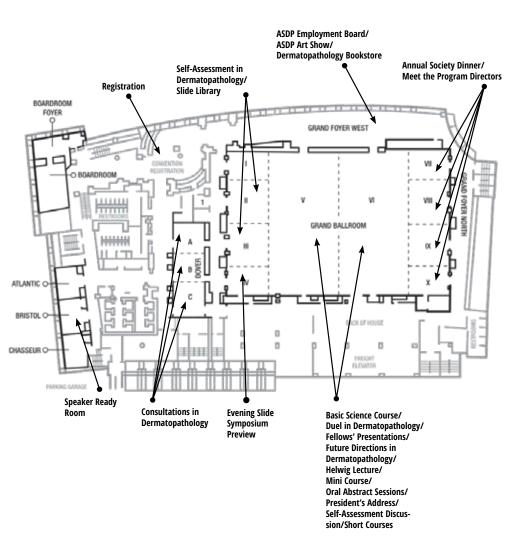

- The majority of melanoma patients are diagnosed with early stage disease
- Most deaths due to melanoma occur among those patients initially diagnosed as Stage I or II
- DecisionDx-Melanoma uses tumor biology to provide an individual risk of melanoma recurrence beyond traditional clinical factors

General Information

Continuing Medical Education

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The American Society of Dermatopathology designates this live activity for a maximum of 35 AMA PRA Category 1 Credits[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Society of Dermatopathology Annual Meeting, Program #254100, is recognized by the American Academy of Dermatology for 35 AAD Recognized Credits and may be used toward the AAD CME Award.

Continuing Medical Education Policy

The American Society of Dermatopathology (ASDP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME). As such, we are required to meet the ACCME's expectations for our practice of continuing medical education.

It is the policy of the ASDP to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. Faculty participating in and planning the Annual Meeting must comply with all procedures governing disclosure. The ASDP has implemented a process where everyone in a position to control the content of an educational activity will present evidence-based content, disclose all relevant financial relationships with any commercial interest and discussion of unlabeled/investigational uses of a commercial product. In addition, presentations must be free of commercial bias and any information regarding commercial products/services must be based on scientific methods generally accepted by the medical community. Conflicts were resolved prior to this educational activity. Faculty who refused to disclose relevant financial relationships and discussion of unlabeled/investigational uses of a commercial product would have been disqualified from being a part of the planning and implementation of this CME activity.

Presenters who qualified for the implementation of this activity are required to disclose to the audience verbally and in writing, immediately prior to the scientific presentation, any of the relationships mentioned above. Faculty relationships are also disclosed to audiences in this program book.

CME Claims and Verification of Attendance

Important! Attendees will be able to claim their CME credits online via the ASDP website after the meeting. You must submit your CME credit online in order to receive appropriate CME credit. The number of CME credit available

Meeting Program

for each course is indicated by the course title in this program and on the online CME submission site. A **CME Tracker** is included in this book on page 71. An official CME certificate will be available to print immediately after completing the online CME claim form and evaluation. Paper certificates will no longer be mailed.

Appropriate credit for attendance should be ascertained and reported by individual physicians to the particular state or medical society to which he/she belongs. For those registered in the AAD CME Transcript/Award Program, you should log in to the AAD Online CME Transcript Program to enter credits for this AAD Recognized program. ASDP's AAD program number is 254100.

MOC Claims and Verification

MOC credit for the Self-Assessment in Dermatopathology sessions will not be included on the Annual Meeting CME Certificates. Participants must complete the post-course online self-assessment with a score of 60 percent or better in order to claim MOC credit for Self-Assessment in Dermatopathology. A MOC certificate will be available to print upon successful completion of the post-course online self-assessment.

Learning Objectives

The educational mission of the American Society of Dermatopathology is to teach, aid in the dissemination of knowledge and encourage research to improve the quality of the practice of dermatopathology. The annual meeting is primarily an educational one, offering members, fellows, residents and medical students lectures on current topics in dermatopathology, interactive sessions at the microscope, a self-assessment course, and opportunities for poster and abstract presentations.

After attending the 2017 Annual Meeting, participants should be able to:

- → Employ enhanced diagnostic skills for skin biopsies from a wide variety of inflammatory and neoplastic conditions.
- → Integrate an ethical approach to the practice of dermatopathology.
- → Recognize important features of infections in the skin, differential diagnoses and diagnostic pitfalls.
- → Understand key underlying basic science mechanisms in skin diseases, especially Merkel cell carcinoma, keratinization disorders and immunologic alterations.
- → Describe and understand key features of various forms of skin lymphomas, soft tissue neoplasms and alopecias.
- → Change the traditional approach to quality improvement and adaptation toward new disruptive technologies.

The American Society of Dermatopathology

Learning Objectives (continued)

- → Recognize the impact of changing technologies on work flow and engage the most appropriate technological resources available in practice.
- → Identify key features in skin biopsies that optimize differential diagnostic distinctions.

ACGME Competencies

The ASDP 54th Annual Meeting is designed to meet the following Accreditation Council of Graduate Medical Education competencies:

- → Employ Evidence-based Practice
- → Medical Knowledge
- → Patient Care
- → Practice-based Learning and Improvement
- → Professionalism
- → Quality Improvement
- → Systems-based Practice

ASDP Social Media Buzz AwardMost tweets from the meeting wins a \$50 Amazon gift card! Include **#ASDP2017** in your tweets to qualify.

Poster Presentations

Harborside Ballroom A-C, 4th Floor

1.5 AMA PRA Category 1 CME Credits™ 1.5 AAD Recognized Credit

Participants will earn .75 AMA PRA Category 1 CME Credit™ for each Poster Defense Session attended.

Basic research, practical techniques and new clinical or histopathologic entities will be presented in this traditional and popular format. Posters will be on display in two poster sessions Thursday afternoon through Sunday morning. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting. See the Program-at-a-Glance for complete Poster Session 1 and 2 schedules.

Poster Viewing

Poster Session 1

Open 1:00 p.m. Thursday, October 26, until 4:30 p.m. Friday, October 27 **Poster Session 2**

Open 8:00 a.m. Saturday, October 28, until 12:00 p.m. Sunday, October 29

Poster Defense

The poster defense sessions will provide an opportunity for discussion between poster presenters and attendees. Poster presenters are asked to make every effort to be at their poster during the defense sessions.

Poster Session 1 Defense

Friday, October 27: 3:45 p.m. - 4:30 p.m.

Poster Session 2 Defense

Saturday, October 28: 10:00 a.m. - 10:45 a.m.

After attending the Poster Defense Sessions, participants should be able to:

- → Identify practical techniques in dermatopathology.
- → Name new clinical or histopathological entities.

The American Society of Dermatopathology

Slide Library

Opens Friday, October 27, at 1 p.m. Grand Ballroom 2-3, 3rd Floor

The ASDP Slide Library opens at 1 p.m. Friday, Oct. 27, and will be open 24-hours-a-day through 11 a.m. Sunday, Oct. 29.

Selected cases from the continuously growing slide library will be available for microscopic examination. Cases are accompanied by the diagnoses and other relevant written information and references. The 2017 Slide Library handout with case summaries, virtual image links, diagnoses with discussion and references will be available to download from the online handout page.

Upon completion of study, participants should be able to:

- Explain histologic diagnoses of various skin conditions, including the use of ancillary studies, where appropriate.
- → Interpret histologic diagnoses of uncommon skin diseases.
- → Critique cases that highlight diagnostic challenges.
- → Apply morphological criteria to differential diagnoses of cutaneous lesions.
- → Develop appropriate differential diagnoses for a wide spectrum of tumors and dermatoses.

Membership Business Meeting

Saturday, October 28 12:15 p.m. - 1:15 p.m. Harborside Ballroom D-E, 4th Floor

ASDP members should attend the Membership Business Meeting luncheon on Saturday, Oct. 28. The annual report to the membership will be distributed to each meeting participant.

Evening Slide Symposium Preview

Opens Thursday, October 26, at 8 a.m.

Grand Ballroom 4, 3rd Floor

The Evening Slide Symposium Preview opens Thursday, Oct. 26, at 8 a.m., and will be open 24-hours-a-day through Sunday, Oct. 29, at 11 a.m.

Preview the Evening Slide Symposium cases at any time during the annual meeting and attend the Evening Slide Symposium Saturday evening. The Evening Slide Symoisum case summaries can be found on page 51.

ASDP Employment Board

Grand Ballroom Foyer, 3rd Floor

The official ASDP career center is located on the website at www.asdp.org; however, the Society has an employment board located in the Grand Ballroom Foyer on the 3rd floor. Meeting registrants can post positions available or resumes for other attendees to peruse. Meeting attendees are responsible for making their own copies.

Dermatopathology Bookstore

Wednesday, October 25 - Sunday, October 29

Grand Ballroom Foyer, 3rd Floor

Leading publishers in the field of dermatopathology will be selling books and other publications during the ASDP 54th Annual Meeting. Be sure to stop by and view the newest work being published! The Dermatopathology Bookstore will be open during registration hours, near the ASDP Registration Desk.

Participating book sellers include:

Elsevier

Wolters Kluwer

Bookstore Hours:

Wednesday, October 25 2:00 p.m. - 6:00 p.m.

Thursday, October 26 7:00 a.m. - 6:00 p.m.

Friday, October 27 6:30 a.m. – 5:00 p.m.

Saturday, October 28 6:30 a.m. - 5:00 p.m.

Sunday, October 29 6:30 a.m. - 11:00 a.m.

Annual Award Recipients

2017 Founders' Award

Clifton R. White, MDDirector of Dermatopathology
Oregon Health & Science University

Clifton White, MD, has served as president of the American Society of Dermatopathology, president and director of the American Board of Dermatology, vice president and member of the Executive Board of the International Society of Dermatopathology, and also a member of the Dermatopathology Test Committee for the Certifying Examination of the

American Boards of Pathology and Dermatology. He is past Editor-in-Chief of the *American Journal of Dermatopathology*, and has served on the editorial board of the *Journal of Cutaneous Pathology*. He has published countless papers in peer-reviewed journals, has authored numerous chapters in books, and has participated in and directed many courses in both national and international meetings and symposia. He is an internationally recognized dermatopathologist who, over the course of more than 32 years, has taught hundreds of dermatology and pathology residents, students and fellows who now practice across the nation.

The 2017 Founders' Award will be presented to Dr. White at the Annual Society Dinner Friday, Oct. 27.

Visit www.asdp.org/foundersaward for a list of previous Founders' Award recipients.

2017 Walter R. Nickel Award

M. Angelica Selim, MD Professor of Pathology Professor of Dermatology Duke University Medical Center

The Walter R. Nickel Award for Excellence in Teaching of Dermatopathology is awarded annually to honor an individual who has made great contributions in dermatopathology education. This year the award is presented to Maria Angelica Selim, MD, professor of pathology and dermatology at Duke University Medical Center.

Dr. Selim did her residency in surgical pathology followed by a fellowship in dermatopathology at Harvard Medical School. In 1990, Dr. Selim joined the faculty of the Departments of Pathology and Dermatology at Duke University Medical Center, reaching the position of director of the Dermatopathology Unit two years later and was named professor of pathology and dermatology in 2013. Since 2002, she has served as the director of the Dermatopathology Fellowship Training Program at Duke University. For the past 15 years, she has also coordinated and supervised the resident dermatopathology education program for the Pathology and Dermatology Departments.

She has published more than 100 papers in prestigious peer-reviewed journals, and authored or edited numerous text books, particularly in the topic of vulvar pathology. She has received numerous visiting professorships and speaking invitations at national and international meetings.

Dr. Selim has maintained an outstanding leadership role in the training of students, residents and fellows. She has been recognized four times with the prestigious Dr. J. Lamar Callaway Award for outstanding contributions to the teaching of the art of dermatology; and three times with the Bernard F. Fetter Master Teacher Award, conferred by the pathology house staff to that faculty member whose skills, knowledge and attitudes have been most influential in their education. She has mentored 20 dermatopathology fellows and hundreds of pathology and dermatology residents. She fosters development of the inquisitive minds of her trainees and nourishes their dermatopathology careers masterfully. Her influence on hundreds of young people at all levels of physician training has produced and will continue to produce a legacy of incomparable value.

The 2017 Walter R. Nickel Award will be presented to Dr. Selim at the Annual Society Dinner Friday, Oct. 27.

Visit www.asdp.org/walterrnickelaward for a list of previous Walter R. Nickel Award recipients.

ASDP Mentorships in Dermatopathology Congratulations to the 2017-2018 Award Recipients

Program-at-a-Glance

The Plenary Program courses are open to all meeting attendees. Your full registration to the ASDP Annual Meeting includes:

- → Future Directions in Dermatopathology: A Forum for Career Development
- → 18th Annual Duel in Dermatopathology
- → Oral Abstract Sessions 1-3
- → Four Short Courses
- → Hermann Pinkus Memorial Basic Science Course
- → President's Address
- → 2017 Elson B. Helwig Memorial Lecture
- → Self-Assessment in Dermatopathology Discussion
- → Fellows' Presentations
- → Evening Slide Symposium
- → 24-hour access to the Evening Slide Symposium Slides
- → Two Poster Sessions
- → 24-hour access to the Slide Library

Optional Courses & Events may require additional fees and include:

- → Consultations in Dermatopathology
- → Mini Course Alopecia: Step-by-Step
- → Self-Assessment in Dermatopathology Slide Viewing Session A, B, C or D
- → Annual Society Dinner
- → Meet the Program Directors Residents Only.

Wednesday, October 25All courses and meeting functions are located on the 3rd floor, unless otherwise noted. *Optional Courses require an additional fee and registration.

ASDP Art Show

Thursday, October 26 - Sunday, October 29 *Grand Ballroom Foyer, 3rd Floor*

The Young Physicians' Committee is sponsoring an event showcasing the artistic talents of the ASDP 54th Annual Meeting attendees. Be sure to stop by and view the exhibition. This multimedia event includes oil and acrylic paintings, watercolors, sculpture, photography, wood carvings, ceramics, calligraphy, paintings, pottery, woodcuts, wood burning and lithography.

View the artistic talents of your colleagues!

"Art evokes the mystery without which the world would not exist." $\,$

Plenary Program

Short Course I Cutting-Edge Diagnosis of Inflammatory Skin Disease

Thursday, October 26 1:00 p.m. - 3:15 p.m. Grand Ballroom 5-6, 3rd Floor

Course Director:

Beth S. Ruben, MD
Palo Alto Medical Foundation

2.25 AMA PRA Category 1 CME Credits™ 2.25 AAD Recognized Credit

The dermatopathologic diagnosis of inflammatory skin disease remains ever-challenging, as the classification and our knowledge of the pathogenesis of some diseases evolves, and newly described diseases emerge. Pattern analysis remains central to reaching a precise diagnosis and integrating the clinical scenario is crucial. In both the inpatient and outpatient settings, successful diagnosis can make a significant impact in patient outcomes. This session will explore a range of inflammatory conditions, from the neutrophilic dermatoses to patterns of infection that can cause diagnostic dilemmas and create pitfalls. Important themes in the inpatient setting will be illustrated. Literature updates regarding these conditions ranging from new entities to progress in the understanding of existing ones will also be discussed.

Faculty and Course Outline

1:00 p.m. – 1:05 p.m.	Introduction Beth S. Ruben, MD Palo Alto Medical Foundation
1:05 p.m. – 1:35 p.m.	Neutrophilic Dermatoses Dieter Metze, MD <i>University of Muenster</i>
1:35 p.m. – 2:05 p.m.	Infections that Mimic Inflammatory Diseases Whitney A. High, JD, MD, MEng University of Colorado and Dermatopathology Consultants
2:05 p.m. – 2:35 p.m.	Inflammatory Skin Disease in the Inpatient Setting: From Erythroderma to Blisters Jeffrey P. North, MD University of California San Francisco

2:35 p.m. – 3:05 p.m. What's New in Inflammatory Skin Disease; Literature Review

Nooshin K. Brinster, MD

New York University

3:05 p.m. - 3:15 p.m. **Q&A**

Upon completion of this course, participants should be able to:

- → Classify neutrophilic dermatoses and other recently described inflammatory disease entities.
- → Recognize and diagnose unusual patterns of inflammatory skin disease and mimickers of cutaneous infection.
- → Demonstrate greater understanding and increased diagnostic accuracy of inflammatory patterns in the inpatient setting.
- → Apply improved diagnostic accuracy of pathogeneses of inflammatory skin diseases.

Congratulations to the 2017 Dermatopathology Research Career Development Award Recipients

Plenary Program (continued)

Oral Abstract Session 1

Thursday, October 26 3:45 p.m. - 5:15 p.m. Grand Ballroom 5-6, 3rd Floor

Course Moderator:

Carrie L. Kovarik, MD University of Pennsylvania

1.5 Category 1 CME Credits[™] 1.5 AAD Recognized Credit

Abstracts presented in Oral Abstract Session 1 can be found in the abstract PDF book available for download at www.asdp.org/AM17. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Time	Title	Speaker
3:45 p.m 3:55 p.m.	Digital Nuclear Morphometric Comparison of Well- differentiated Squamous Cell Carcinoma and Pseudoepitheliomatous Hyperplasia	Elham Yousefi, MD
3:55 p.m 4:05 p.m.	Molecular and Immune Predictors of Response and Toxicity to Combined CTLA-4 and PD-1 Blockade (Ipilimumab/ Nivolumab) Therapy in Patients with Metastatic Melanoma (MM)	Wei-Shen Chen, MD, PhD
4:05 p.m 4:15 p.m.	Genetic Profiles of Different Subsets of Merkel Cell Carcinoma Show Links between Combined and Pure MCPyV-negative Tumors	Michael D. Carter, MD, PhD
4:15 p.m 4:25 p.m.	#dermpathJC: The First Dermatopathology Twitter Journal Club	Silvija P. Gottesman, MD

Meeting Program

4:25 p.m 4:35 p.m.	Melanoma Tumor- infiltrating Lymphocytes Correlate with Subset of Genes Used in Diagnostic Test	Emily M. Erstine, MD, MBA
4:35 p.m 4:45 p.m.	Analysis of 5-Hydroxymethylcytosine Immunoreactivity In Nevoid Melanomas: A Preliminary Report	Mary-Katharine Collins, MD
4:45 p.m 4:55 p.m.	Novel PTEN Mutation (NM_000314.4: c.79+3_6delinsGG) Responsible for Combination Therapy Resistance in a BRAF V600E Malignant Melanoma (MM)	Ariel E. Eber, BS
4:55 p.m 5:05 p.m.	Cutaneous Pleomorphic Liposarcoma: A Clinicopathologic Evaluation of Four Cases	Cathy Massoud, MD
5:05 p.m 5:15 p.m.	Mass Spectrometry Imaging in the Diagnosis of Melanocytic Lesions	Rossitza Lazova, MD

Upon completion of this course, participants should be able to:

- → Identify various clinical and basic science topics within dermatopathology.
- → Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- → Describe innovative investigative studies and tools pertaining to bench and translational research.
- → Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Plenary Program (continued)

18th Annual Duel in Dermatopathology Resident Abstract Competition

Thursday, October 26 5:15 p.m. - 6:45 p.m. Grand Ballroom 5-6, 3rd Floor

Course Moderator:

Nooshin K. Brinster, MD New York University

1.5 Category 1 CME Credits™ 1.5 AAD Recognized Credit

The American Society of Dermatopathology is pleased to present the 18th Annual Duel in Dermatopathology Abstract Competition for dermatology and pathology residents. This resident forum consists of succinct five-minute presentations. Prizes for first, second and third place will be awarded for the best clinical-pathologic case reports. Presentations will be evaluated on content, form, instructive value to dermatopathology and execution. Award recipients will be notified by email after the meeting. Abstracts presented in the Duel in Dermatopathology Resident Abstract Competition can be found in the abstract PDF book available for download at www.asdp.org/AM17.

Time	Title	Speaker

6:10 p.m 6:15 p.m.	Disseminated Kaposi Sarcoma Erupting After Treatment for Bullous Pemphigoid	Kanika Goel, MD

Plenary Program (continued)

18th Annual Duel in Dermatopathology Resident Abstract Competition (continued)

6:15 p.m 6:20 p.m.	A Case of Multifocal Invasive Mucinous Carcinoma with Associated Endocrine Mucin-Producing Sweat Gland Carcinoma: A 14 Year Follow-Up	Sarah A. Al-Awami, MBBS
6:20 p.m 6:25 p.m.	Blastoid Mantle Cell Lymphoma of the Dermis and Subcutis presenting as Panniculitis: A Case Report	Elizabeth McKinnon, MD
6:25 p.m 6:30 p.m.	Unique Report of Pseudoporphyria Associated with Sofosbuvir and Simeprevir Antiviral Therapy for Hepatitis C Infection	Susan Pei, MD
6:30 p.m 6:35 p.m.	A Novel Case of Aggressive Cutaneous Spindle Cell Sarcoma with EML4-NTRK3 Fusion Resembling Dermatofibrosarcoma Protuberans	Nicholas J. Olson, MD
6:35 p.m 6:40 p.m.	Melanotic Neurofibroma and Other Uncommon Findings in a Patient With Neurofibromatosis Type 1	Michael Xiong, MD
6:40 p.m 6:45 p.m.	Secretory Carcinoma of the Skin: A Case with ETV6 Gene Rearrangement	Robert Moore, MD

Upon completion of this course, participants should be able to:

- → Expand diagnostic skills by recognizing clinicopathologic entities presented via abstracts.
- → Utilize and interpret diagnostic clues and techniques identified by literature review of these cases.

Future Directions in Dermatopathology: A Forum for Career Development

Thursday, October 26 7:00 p.m. - 9:00 p.m. Grand Ballroom 5-6, 3rd Floor

Course Directors:

Alejandro A. Gru, MD University of Virginia

Erick Jacobson-Dunlop, MD Twin Cities Dermatopathology

2 AMA PRA Category 1 CME Credits™ 2 AAD Recognized Credit

All meeting attendees are invited to join us for this informative program. This year's Future Directions in Dermatopathology session will include a variety of topics relevant to early and experienced dermatopathologists.

Dermatopathologists are faced with unique challenges in their early years of practice. These include, but are not limited to, securing employment, making sound life and career choices, avoiding diagnostic errors, and adapting to rapidly changing technologies in dermatopathology practice. In addition, they are faced with challenges of balancing the priorities of patient care, teaching, career advancement and personal life. This course aims to address those issues which are of particular importance to dermatopathologists in their first seven years of practice, but also of interest to anyone practicing dermatopathology.

Faculty and Course Outline

7:00 p.m 7:05 p.m.	Introductions
7:05 p.m. – 7:25 p.m.	The Balancing Act — Career, Family, Friends and Fun Jacqueline M. Junkins-Hopkins, MD <i>Ackerman Academy of Dermatopathology</i>
7:25 p.m. – 7:45 p.m.	The Weakest Link Mark Jacobson, MBBCh Albert Einstein College of Medicine
7:45 p.m. – 8:05 p.m.	Disruptive Technologies in Dermatopathology: Repackaging the Role of the Doctor's Doctor Melissa Pulitzer, MD Memorial Sloan Kettering Cancer Center

Plenary Program (continued)

Future Directions in Dermatopathology: A Forum for Career Development (continued)

8:05 p.m 8:25 p.m.	The Secret to Professional Happiness in an Uncertain World Dirk M. Elston, MD Medical University of South Carolina
8:25 p.m. – 8:55 p.m.	Q&A
8:55 p.m. – 9:00 p.m.	Closing Remarks

Upon completion of this course, participants should be able to:

- → Apply appropriate tools and skills to achieve work-life balance.
- → Anticipate and prevent hazards that can lead to potentially catastrophic diagnostic errors and improve patient care.
- → Identify new and rapidly evolving technologies in dermatopathology practice.
- → Recognize the impact of changing technologies on work flow and select the most appropriate technological resources available.
- → Understand how insourcing and limited provider networks affect dermatopathologic practice.
- → Utilize data to make informed career decisions.

7th Annual Young Physicians' Reception

Thursday, October 26 9:00 p.m. - 11:00 p.m. Raven, Lobby Level

Dermatology and pathology residents, dermatopathology fellows and dermatopathologists in their first seven years of practice are invited to network with the Future Directions in Dermatopathology faculty members and other dermatopathology role models at the Young Physicians' Reception. Hors d'oeuvres and refreshments will be served. Don't miss this unique opportunity to develop professional relationships with your leaders and peers.

Short Course II Infections in Dermatopathology: What is "Bugging" You?

Friday, October 27 8:00 a.m. - Noon Grand Ballroom 5-6, 3rd Floor

Course Director:

Alina G. Bridges, DO Mayo Clinic, Rochester

3.5 AMA PRA Category 1 CME Credits™ 3.5 AAD Recognized Credit

This course will provide an update on the pathology of cutaneous skin infections. The diagnosis of various viral, bacterial, fungal and parasitic infections and their differential diagnosis will be reviewed. A diagnostic approach to these challenging diseases and how to avoid diagnostic pitfalls will be presented. Clinical pathologic correlations, appropriate laboratory evaluation, and new molecular diagnostic tools will be discussed. The knowledge gained from this course can be applied to provide optimum care and improve patient outcomes.

Faculty and Course Outline

8:00 a.m 8:10 a.m.	Introduction Alina G. Bridges, DO Mayo Clinic, Rochester
8:10 a.m 8:40 a.m.	Histologic Patterns of Importance in the Diagnosis of Cutaneous Infections Alina G. Bridges, DO Mayo Clinic, Rochester
8:40 a.m 9:10 a.m.	Identification of Viruses, Bacteria, Fungi and Parasites in Tissue Sections: Recognition of Their Mimickers and Avoiding Diagnostic Pitfalls Tammie C. Ferringer, MD Geisinger Medical Center
9:10 a.m 9:40 a.m.	Infections of Emerging Importance in the
	Immunocompromised Host Melissa P. Piliang, MD Cleveland Clinic

#ASDP2017

Plenary Program (continued)

Short Course II (continued)

Infections in Dermatopathology: What is "Bugging" You?

10:15 a.m 10:45 a.m.	Great "Imitators" — Syphilis, Lyme Disease, Leprosy, HIV: Diseases with Diagnostic Challenges Dirk M. Elston, MD Medical University of South Carolina
10:45 a.m 11:15 a.m.	Role of Herpesvirus Family in Skin Disease Julia S. Lehman, MD Mayo Clinic, Rochester
11:15 a.m 11:45 a.m.	Useful Tools in the Diagnosis of Cutaneous Infections Daniel N. Cohen, MD, PhD Baylor College of Medicine
11:45 a.m Noon	Q&A and Closing Remarks

Upon completion of this course, participants should be able to:

- Apply clinical pathologic correlation, and appropriate laboratory and molecular diagnostic tools to improve diagnostic accuracy of cutaneous skin infections.
- → Identify various histopathologic patterns and organisms in tissue sections associated with cutaneous infections.
- → Diagnose infections in an immunocompromised patient, including the 'great imitators' in infections-syphilis, Lyme disease, leprosy and HIV.
- → Recognize the important role of herpesviruses in skin disease, their differential diagnoses and diagnostic pitfalls.

Hermann Pinkus Memorial Basic Science Course

Friday, October 27 4:30 p.m. - 6:45 p.m. Grand Ballroom 5-6, 3rd Floor

Course Director:

Melissa P. Piliang, MD Cleveland Clinic

2.25 AMA PRA Category 1 CME Credits™ 2.25 AAD Recognized Credit

This year's Basic Science Course will explore the biology of Merkel cell carcinoma, keratinization disorders and the immunology and tolerance of skin. The role of T-cells, dendritic cells and tolerance in the development of autoimmunity will also be discussed.

Faculty and Course Outline

4:30 p.m. – 5:05 p.m.	Immune Homeostasis and Mononuclear Phagocytes of the Skin Niroshana Anandasabapathy, MD, PhD Harvard Medical School
5:05 p.m. – 5:40 p.m.	T-cells, Dendritic Cells and Autoimmunity Daniel H. Kaplan, MD, PhD <i>University of Pittsburgh</i>
5:40 p.m. – 6:15 p.m.	Disorders of Cornification Dieter Metze, MD University of Muenster
6:15 p.m. – 6:45 p.m.	Merkel Cells and Merkel Cell Carcinoma Issac Brownell, MD, PhD National Institutes of Health

Upon completion of this course, participants should be able to:

- → Understand the biology of Merkel cells and Merkel cell carcinoma.
- → Discuss the role of lymphocytes, macrophages and dendritic cells in the development of autoinflammatory diseases.
- → Describe how keratinocyte biology pertains to keratinization and disorders of cornification

Plenary Program (continued)

Short Course III Myeloid and Histiocytic Proliferations

Saturday, October 28 8:00 a.m. - Noon Grand Ballroom 5-6, 3rd Floor

Course Director:

Melissa Pulitzer, MD Memorial Sloan Kettering Cancer Center

3.25 AMA PRA Category 1 CME Credits™ 3.25 AAD Recognized Credit

Non-lymphoid hematologic infiltrates are predominantly comprised of proliferations of cells of granulocytic/monocytic differentiation. In dermatopathology these proliferations are approached as reaction patterns (red versus blue granulomas, diffuse versus angiocentric infiltrates, or sarcoidal versus non-sarcoidal granulomas). Other factors considered include:

- cell of origin or stage of differentiation of cell of origin (Langerhans verus non-Langerhans cell histiocytoses, immature versus terminally differentiated stage), and
- their malignant potential (inflammatory process versus indolent clonal disease versus malignant "sarcoma".)

Existing resources of molecular and immunologic data help classify these diseases with greater consideration for associated biomarkers, how they will guide therapy and outcomes, and subtle reclassification of these hematologic processes. This course will traverse the spectrum of myeloid and histiocytic disorders and proliferations. Consideration will be given to diagnostic tools used to distinguish benign/reactive versus malignant conditions and further sub-classification of these conditions, with special attention given to subtle diagnostic clues of less frequently seen inflammatory and storage related histiocytic conditions. The relationship between histiocytic proliferations and completely distinct malignancies will also be discussed.

Faculty and Course Outline

8:00 a.m 8:05 a.m.	Introduction Melissa Pulitzer, MD Memorial Sloan Kettering Cancer Center
8:05 a.m 8:25 a.m.	Myeloid Leukemia/Myeloproliferative Disorders and Mastocytosis in Skin Melissa Pulitzer, MD Memorial Sloan Kettering Cancer Center
8:25 a.m 8:45 a.m.	Myeloid Dendritic Cell Proliferations and Select Sarcomas of Monocyte/Dendritic Cell Origin Cynthia M. Magro, MD Weill Cornell Medicine Department of Pathology & Laboratory Medicine
8:45 a.m 9:05 a.m.	Langerhans Cell Histiocytosis (LCH) and Blastic Plasmacytoid Dendritic Cell Neoplasm (BPDCN) in Skin Antonio Subtil, MD, MBA Yale University School of Medicine
9:05 a.m 9:20 a.m.	Neutrophillic Dermatoses — Not Just "A Cute" Inflammatory Infiltrate Jacqueline M. Junkins-Hopkins MD Ackerman Academy of Dermatopathology
9:20 a.m 9:40 a.m.	The Spectrum of Non-Langerhans Cell Histiocytosis Rosalynn M. Nazarian, MD Harvard Medical School
9:40 a.m 10:00 a.m.	Lumping the Lumps: An Approach to Naked Granulomas Karolyn A. Wanat, MD University of lowa
10:00 a.m. – 10:45 a.m.	Refreshment Break
10:45 a.m 11:05 a.m.	Cutaneous Rosai-Dorfman Disease: A Distinct Clinical Entity with a Wide Clinicopathologic Spectrum M. Yadira Hurley, MD Saint Louis University
11:05 a.m. – 11:20 a.m.	Hemophagocytic Syndrome and Storage Diseases Robert G. Phelps, MD Mount Sinai School of Medicine & Mount Sinai Medical Center

Plenary Program (continued)

Short Course III (continued) Myeloid and Histiocytic Proliferation

11:20 a.m 11:40 a.m.	Cutaneous Histiocytic Proliferations: Interplay with Malignancies Noreen M.G. Walsh MD, FRCPC, FRCPath Dalhousie University, Halifax
11:40 a.m Noon	Granulomatous Vasculitides Lawrence E. Gibson, MD Mayo Clinic, Rochester

Upon completion of this course, participants should be able to:

- → Conceptualize myeloid and histiocytic proliferations in the skin.
- → Recognize both classic and unusual clinicopathologic presentations of the range of myeloid and histiocytic proliferations arising in skin.
- → Discuss the uses and limitations of architectural and morphologic patterns in the diagnosis of these conditions.
- Use key branch points and techniques for incorporating ancillary studies and clinical data in diagnosis and prognosis of non-lymphoid hematologic infiltrates.
- → Utilize current and evolving molecular diagnostic tests (tissue and fluid-based) to classify, treat, and monitor patients with cutaneous myeloid and histiocytic proliferations.

Fellows' Presentations

Saturday, October 28 1:20 p.m. - 3:20 p.m. Grand Ballroom 5-6, 3rd Floor

Course Moderator:

Soon Bahrami, MD University of Louisville School of Medicine

2 AMA PRA Category 1 CME Credits™ 2 AAD Recognized Credit

The Continuing Education and Research Committee has selected 18 of the outstanding submissions in the Fellows in Dermatopathology abstract category to be presented orally. This abstract session will have a mix of case reports, clinical studies and basic science presentations. Abstracts presented in the Fellows' Presentations can be found in the abstract PDF book available for download at www.asdp.org/AM17. Fellows are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

1:45 p.m. – 1:50 p.m.	Angiolymphoid Hyperplasia with Eosinophilia (Epithelioid Hemangioma): A Mimic of IgG4-Related Skin Disease or Two Sides of the Same Coin?	Patrick S. Rush, DO
1:50 p.m. – 1:55 p.m.	Invasive and Disseminated Dermal Trichophyton Rubrum Infection in an Immunocom- promised Patient	Kevin J. Gaddis, MD
1:55 p.m. – 2:00 p.m.	Langerhans Cell Histiocytosis: BRAF V600E Mutation as a Therapeutic Target	Benjamin F. Kelley, MD
2:00 p.m 2:05 p.m.	A Case of a Syphilitic Gumma: Gaps in T. Pallidum Detection Via Immunohistochemistry	Aegean H. Chan, MD
2:05 p.m. – 2:10 p.m.	Lipoblastoma-like Genital Stromal Tumor Occurring in a Male	Brian C. Willis, MD
2:10 p.m. – 2:15 p.m.	Pleomorphic Mastocytoma: A Case of Cutaneous Mastocytosis with Severe Atypia but No Aggressive Behavior or Systemic Involvement	Mariantonieta Tirado, MD
2:15 p.m. – 2:20 p.m.	Cutaneous Granulomatous Vasculitis in the Setting of Sarcoidosis	Dilys Chen, MD
2:20 p.m. – 2:30 p.m.	Psoriasis and Spongiotic Dermatitis Demonstrate Differences in Th2 and Th17 CD4 T Cell Subsets, and Beta-Defensin 2 and IL-36 Expression	Jarish Cohen, MD, PhD

Meeting Program

2:30 p.m. – 2:40 p.m.	A Dual PD-L1/SOX-10 Immunohistochemical Study Combined with Digital Imaging Enhances Accuracy in Stratifying Metastatic Melanoma Patients for Immune Checkpoint Therapy	Sri Krishna C. Arudra, MD
2:40 p.m. – 2:50 p.m.	Spitz Tumors with Syringofibroadenoma-like Adnexal Hyperplasia: An Emerging Unique Subset	Ifeoma U. Perkins, MD
2:50 p.m. – 3:00 p.m.	NCOA2-ETV3 Translocation in Juvenile Xanthogranuloma	Ryanne Brown, MD, MBA
3:00 p.m. – 3:10 p.m.	INSM1 Immunohistochemistry Offers Improved Sensitivity and Specificity for the Diagnosis of Merkel Cell Carcinoma	Mohammed T. Lilo, MD
3:10 p.m. – 3:20 p.m.	Immunohistochemical Evidence of Neuroendocrine Differentiation in Mucinous Eccrine Carcinoma Suggests Similarity with Endocrine Mucin-producing Sweat Gland Carcinoma	Gauri Panse, MD

Upon completion of this session, participants should be able to:

- → Identify various clinical and basic science topics within dermatopathology.
- → Exemplify and promote the exchange of new ideas and concepts within the field of dermatopathology.
- → Describe innovative investigative studies and tools pertaining to bench and translational research.
- → Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Plenary Program (continued)

Oral Abstract Session 2

Saturday, October 28 3:45 p.m. - 4:45 p.m. Grand Ballroom 5-6, 3rd Floor

Course Moderator:

Karl M. Napekoski, MD Laboratory and Pathology Diagnostics, LLC

1 AMA PRA Category 1 CME Credit™ 1 AAD Recognized Credit

Abstracts presented in Oral Abstract Session 2 can be found in the abstract PDF book available for download at www.asdp.org/AM17. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Time	Title	Speaker
3:45 p.m. – 3:55 p.m.	Comparison of Melanoma Gene Expression Score with Histopathology, Fluorescence in situ Hybridization, and Array CGH for the Classification of Melanocytic Neoplasms	Julie Reimann, MD, PhD
3:55 p.m. – 4:05 p.m.	Application of the Novel Ex-Vivo Microscopy, MUSE (Microscopy with UV Surface Excitation) in Dermatopathology	Amir Ghorbani, MD
4:05 p.m 4:15 p.m.	Increased Incidence and Growth of Dermatofibrosarcoma Protuberans (DFSP) in Pregnancy: A Clinical Survey of DFSP Patients via Facebook Support Groups	Ryan J. Campbell, MD

Meeting Program

4:15 p.m 4:25 p.m.	MALDI Mass Spectrometry Differentiates Squamous Cell Carcinomas, Basal Cell Carcinomas, Verrucas and Seborrheic Keratoses	Jason B. Robbins, MD
4:25 p.m. – 4:35 p.m.	MSH-2/MSH-6 Negative Matricoma in Lynch Syndrome - Possible Clinical Overlap with Constitutional Mismatch Repair Deficiency Syndrome	Vijay M. Patel, MD
4:35 p.m 4:45 p.m.	Next Generation Sequencing as a Tool to Distinguish Primary Invasive Melanoma from Metastatic Melanoma: A Series of Unusual and Challenging Cases	Ursula E. Lang, MD, PhD

Upon completion of this course, participants should be able to:

- → Identify various clinical and basic science topics within dermatopathology.
- → Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- → Describe innovative investigative studies and tools pertaining to bench and translational research.
- → Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

2017 President's Address

Saturday, October 28 4:45 p.m. - 5:15 p.m. Grand Ballroom 5-6, 3rd Floor

.5 AMA PRA Category 1 CME Credit™ .5 AAD Recognized Credit

Lawrence E. Gibson, MD Dermatopathology: Returning to Why

This year's President's Address will highlight the journey to dermatopathology and its relevance to modern medical practice. Despite potential challenges, multiple opportunities are available for personal growth and further evolution of the practice. Several specific areas of potential contribution will be presented including communication, education, publication and quality improvement. The critical role

volunteers play in the evolution of the practice will also be discussed. Not losing sight of why we are involved in this specialty is critical to individual and collective success.

Upon completion of this lecture, participants should be able to:

- → Recognize the importance of ongoing education to improve daily practice.
- → Use the most up-to-date and evolving quality improvement standards to improve patient care.
- → Identify various opportunities for and use appropriate communication techniques to advance personal and professional growth.
- Anticipate changes and resolve potential challenges in dermatopathology practice.

2017 Elson B. Helwig Memorial Lecture

Saturday, October 28 5:15 p.m. - 6:15 p.m. Grand Ballroom 5-6, 3rd Floor

1 AMA PRA Category 1 CME Credit™ 1 AAD Recognized Credit

The Elson B. Helwig Memorial lectureship is awarded in recognition of excellence in the realm of diagnostic dermatopathology and for significant contribution to the dermatopathology literature and the education of fellows and colleagues.

Elaine S. Jaffe, MD
Chief, Hematopathology Section, Laboratory of
Pathology
Center for Cancer Research, National Cancer Institute

Navigating Cutaneous Lymphomas — Do Still Waters Run Deep?

The diagnosis and management of cutaneous lymphomas is often challenging. This lecture will highlight key aspects of cutaneous lymphomas, providing insight into clinical behavior, based

on an integrated diagnostic approach that incorporates morphology, immunophenotype and genetic features.

Upon completion of this course, participants should be able to:

- → Evaluate the differences between primary and secondary lymphomas diagnosed in the skin.
- → Utilize clinical, morphologic, immunophenotypic and molecular parameters to accurately diagnose cutaneous lymphomas.

This clinically oriented lecture began in October 1998 as the "Special Guest Lecture." On July 31, 2000, the "Special Guest Lecture" was officially named the Elson B. Helwig Memorial Lecture in tribute of Dr. Helwig.

Plenary Program (continued)

Evening Slide Symposium

With Audience Response System

Saturday, October 28 7:30 p.m. - 9:30 p.m. Grand Ballroom 5-6, 3rd Floor

Course Director:

Melissa P. Piliang, MD Cleveland Clinic

2 AMA PRA Category 1 CME Credits™ 2 AAD Recognized Credit

In this traditionally popular symposium, a five member panel will present 15 microscopically challenging cases. An in-depth discussion by the panel will focus on the histological and clinicopathological aspects of each case. A relaxed and educationally stimulating atmosphere is planned. Audience participation is encouraged and casual attire is expected.

Faculty

Daniel D. Bennett, MD *University of Wisconsin*

Catherine G. Chung, MD Pennsylvania State University

Sara C. Shalin, MD, PhD University of Arkansas for Medical Sciences Michael T. Tetzlaff, MD, PhD University of Texas MD Anderson Cancer Center

Karolyn A. Wanat, MD University of Iowa

Upon completion of this course, participants should be able to:

- → Differentiate clinical and histological features of interesting, complex, difficult and rare disorders of the skin.
- → Demonstrate an approach toward diagnosis of complex, challenging skin biopsies.
- → Generate clinically relevant differential diagnoses.

Evening Slide Symposium Case Summaries

Case 1

A 67-year-old woman with multiple medical problems including diabetes mellitus and non-Hodgkin lymphoma presents with an expanding wound on her leg after an aggressive pedicure one year prior and a new disseminated eruption after starting minocycline.

Case 2

An 80-year-old woman with a new tender erythematous nodule on her right forearm.

Case 3

A 79-year-old woman presents with a new perianal skin lesion.

Case 4

A 21-year-old man with a 6-month history of a painful 3 cm "anal mass."

Case 5

A 70-year-old man with a longstanding history of Chronic Myelomonocytic Leukemia (CMML) with new lesions on the neck and temple. The tumor cells are strongly and diffusely positive for S100.

Case 6

A 39-year-old Caucasian woman with a melanoma of right forearm and right axillary metastatic melanoma developed multiple subcutaneous nodules on the bilateral lower extremities and buttocks.

Case 7

A 50-year-old Caucasian female presents with bilateral foot and ankle swelling and tenderness of 4 months' duration.

Case 8

A 16-year-old African American male presents with multiple hyperpigmented plaques on the left leg after a basketball injury.

Case 9

A 37-year-old Caucasian male with a history of bilateral hand transplant presents with multiple firm papules on the palmar and lateral surfaces of the fingers.

Case 10

The patient is a 57-year-old man with iatrogenic immunosuppression following cadaveric renal transplantation one year ago. He presents with a posterior thigh ulcer, scattered pustules and positive urinary histoplasma antigen.

Evening Slide Symposium Case Summaries (continued)

Case 11

The patient is a 65-year-old man with a 2-3 month history of asymptomatic urticarial plagues associated with myalgia, elevated ESR, and episodic "chills."

Case 12

The patient is a 71-year-old woman with leg ulcers and firm subcutaneous nodules on the trunk and proximal extremities. In addition, she is noted to have mild thrombocytopenia, elevated transaminases, and new-onset lower leg edema.

Case 13

An elderly female with long history of psoriasis presents with several red nodules on shin.

Case 14

A 35-year-old HIV-positive woman with history of vulvar dysplasia presents now with a non-healing ulcerated vulvar mass.

Case 15

Newly acquired hyperpigmented plaques found on an adult woman admitted to inpatient psychiatry service with catatonia. Plaques disappeared with vigorous rubbing with alcohol swab.

Oral Abstract Session 3

Sunday, October 29 7:30 a.m. - 8:30 a.m. Grand Ballroom 5-6, 3rd Floor

Course Moderator:

Christine J. Ko, MD Yale University School of Medicine

1 AMA PRA Category 1 CME Credits™ 1 AAD Recognized Credit

Abstracts presented in Oral Abstract Session 3 can be found in the abstract PDF book available for download at www.asdp.org/AM17. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Oral Abstract Session 3 (continued)

8:10 a.m 8:20 a.m.	Cutaneous Composite Lymphoma: Primary Cutaneous Diffuse Large B-cell Lymphoma, Leg Type, Combined with Cutaneous Cytotoxic T-cell Lymphoma	Fengming Chen, MD
8:20 a.m 8:30 a.m.	Distinct Patterns of Acral Melanoma Based on Site and Relative Sun Exposure	Pedram Gerami, MD

Upon completion of these sessions, participants should be able to:

- → Identify various clinical and basic science topics within dermatopathology.
- → Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- → Describe innovative investigative studies and tools pertaining to bench and translational research.
- → Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Short Course IV

Ethics in Dermatopathology: What Are the Best Practices, and Are We Using Them?

With Audience Response System

Sunday, October 29 8:30 a.m. - Noon Grand Ballroom 5-6, 3rd Floor

Course Director:

Beth S. Ruben, MD Palo Alto Medical Foundation

3.25 AMA PRA Category 1 CME Credits™ 3.25 AAD Recognized Credit

Don't miss this interactive session, including lecture and audience participation, as a panel of dermatopathologists experienced in the thorny ethical matters of our specialty discuss a range of topics that frequently present themselves in practice. From marketing and scope of practice issues, to possible conflicts of interest, these issues can threaten our specialty and erode professionalism. When it comes to diagnostic errors, differences of opinion and expert testimony, communication by dermatopathologists, both verbal and in reports and depositions, may present an opportunity for professional etiquette, or the opposite, sometimes creating more damage in the process. And how should pathologists be involved in communicating directly with patients? With respect to melanoma diagnoses, are we over diagnosing, resulting in a perceived epidemic? If so, why and what are the implications for patients and our health care system? Bring your questions and get ready for an energetic last course of the annual meeting!

Faculty and Course Outline

8:30 a.m 8:35 a.m.	Introduction Beth S. Ruben, MD Palo Alto Medical Foundation
8:35 a.m 9:10 a.m.	Mayhem in the Market: How Unethical Marketing Practices Erode Our Specialty Philip E. LeBoit, MD University of California San Francisco
9:10 a.m 9:45 a.m.	"Dermatopathologists" Making Treatment Recommendations and Selling Products Online Omar P. Sangueza, MD Wake Forest University School of Medicine

Plenary Program (continued)

Short Course IV (continued)

Ethics in Dermatopathology: What Are the Best Practices, and Are We Using Them?

9:45 a.m. – 10:15 a.m.	In-office Dermatopathology Laboratories and Conflict of Interest, and Error Disclosure in Dermatopathology and the Pathologist-Patient Relationship Benjamin K. Stoff, MD, MA Emory University School of Medicine
10:15 a.m. – 10:30 a.m.	Refreshment Break
10:30 a.m. – 11:05 a.m.	The Melanoma "Epidemic": Practical and Ethical Implications Earl J. Glusac, MD Yale University School of Medicine
11:05 a.m 11:40 a.m.	The Appropriate Way to Convey Uncertainty or Reasonable Differences in Opinion on Cases in an "Ethical Fashion," and Ethics in Expert Testimony Whitney A. High, JD, MD, MEng University of Colorado and Dermatopathology Consultants
11:40 a.m Noon	Panel Discussion

Upon completion of this course, participants should be able to:

- → Avoid unethical marketing, laboratory practices and scope of practice issues.
- → Understand the implications of unethical behavior in dermatopathology.
- → Apply best practices in the communication of medical errors, differences of opinion and medicolegal testimony.
- → Analyze how a possible melanoma epidemic arising from over diagnosis can affect patients and the health care environment.

Optional Courses & Events

Consultations in Dermatopathology

1.25 AMA PRA Category 1 CME Credits[™] per course 1.25 AAD Recognized Credit per course

Tickets are required to enter each course.

All Consultations in Dermatopathology are located on the 3rd Floor.

All courses use a 10-headed microscope with a class size of nine. Generally, each session permits 30 minutes of study at individual microscopes followed by 45 minutes of interactive work with the course director.

Mini Course

Alopecia: Step-by-Step

Thursday, October 26 8:30 a.m. – Noon

Grand Ballroom 5-6, 3rd Floor

3.25 AMA PRA Category 1 CME Credits™ 3.25 AAD Recognized Credit

Course Director:

Leonard C. Sperling, MD Uniformed Services University of the Health Sciences

This year's mini course will provide an overview of the histologic interpretation of alopecia with clinical correlation. The course will also cover tissue processing, an approach to an organized microscopic evaluation, key histologic features and their diagnostic significance, review of non-cicatricial alopecia and cicatricial alopecia, and clinical/pathologic correlation.

Faculty and Course Outline

#ASDP2017

Optional Courses & Events (continued)

Mini Course (continued)
Alopecia: Step-by-Step

Upon completion of this course, participants should be able to:

- → Evaluate their approach to histologic evaluation of hair loss and implement a step-by-step approach.
- → Select and apply appropriate techniques for sectioning the "alopecia" biopsy specimen.
- → Understand the role and responsibilities of the clinician in the interpretation of an "alopecia" biopsy specimen.

Self-Assessment in Dermatopathology

Course Director:

Tammie C. Ferringer, MD Geisinger Medical Center

10.75 AMA PRA Category 1 CME Credits™ 10.75 AAD Recognized Credits 10.75 SAMs 100 MOC SA Question Credits

Be on time - Self-Assessment slide viewing sessions begin on time. Due to the timed schedule of each session, doors will close promptly at start time. Late arrivals will not be permitted. No refunds will be given for sessions missed due to tardiness. No exceptions.

NEW THIS YEAR! All meeting attendees are invited to attend the Self-Assessment Discussion and are eligible to receive up to 2.25 *AMA PRA Category 1 Credits™* for the activity. Registered and paid participants will also participate in one of four identical slide viewing sessions and are eligible for up to 10.75 *AMA PRA Category 1 Credits™*.

Registered and paid participants will have the opportunity to study 50 challenging slides representing a wide range of inflammatory and neoplastic diseases during one of four identical sessions (A, B, C or D). Separate tickets are required to enter each slide viewing session. Subsequently, all meeting participants will meet in a single Self-Assessment Discussion session in which faculty members will review the diagnostic features of each case, as well as the differential diagnosis. **IMPORTANT!** Please note the new time for the Self-Assessment Discussion.

The Self-Assessment Case Answers and Discussions – Part 1 PDF handout consists of the 50 cases discussed at the meeting and will be available online to all annual meeting attendees on the annual meeting handout page upon conclusion of the last slide viewing session. The Self-Assessment Case Answers and Discussions – Part 2 PDF handout consists of the 25 core knowledge cases and will be available online only as part of the post-course self-assessment. Only registered and paid attendees will have access to the Part 2 PDF handout and the post-course online self-assessment.

Optional Courses & Events (continued)

Self-Assessment in Dermatopathology (continued)

Post-course online self-assessment: A post-course online self-assessment will be available after the meeting and will include 25 core knowledge cases in addition to the 50 advanced cases studied at the meeting. You must register and pay for the Self-Assessment Course to receive access to the post-course online self-assessment and the Self-Assessment Case Answers and Discussions – Part 2 PDF handout. Self-assessment registrants will receive a link to the post-course online self-assessment by email after the Self-Assessment Discussion on Friday afternoon of the Annual Meeting and will have up to 30 days to complete the activity. Self-Assessment registrants must take the post-course online self-assessment to receive MOC credit for this activity.

CME – Participants will receive 2 *AMA PRA Category 1 Credits*[™] for one of the Self-Assessments A-D, 2.25 *AMA PRA Category 1 Credits*[™] for the Self-Assessment Discussion and 6.5 *Category 1 CME Credits*[™] for completion of the post-course online self-assessment for a total of 10.75 *Category 1 CME Credits*[™]. Participants must complete the post-course online self-assessment in order to claim the remaining CME credit. A CME certificate will be available to print after completing the meeting evaluation online.

MOC - The ASDP Annual Meeting post-course online self-assessment offers MOC self-assessment credits to satisfy the American Board of Dermatology (ABD) Component 2 and the American Board of Pathology (ABP) Part II MOC requirements. A MOC certificate will be available to print upon successful completion of the post-course online self-assessment.

ABD SA – The ASDP has been approved by the American Board of Dermatology (ABD) to produce Self-Assessment (SA) activities to satisfy the ABD Maintenance of Certification program Component 2. SA activities are intended to be of value to the practicing dermatologist. ASDP is solely responsible for the content. The ASDP Self-Assessment in Dermatopathology offers up to 100 MOC SA question credits. Participants must take the post-course online self-assessment in order to claim SA points.

ABP SAMs – ASDP is a provider of Self-Assessment Modules (SAMs) for Part II of the Maintenance of Certification program of the American Board of Pathology (ABP). The ASDP Self-Assessment in Dermatopathology offers 10.75 SAMs. Participants must take and pass the post-course online self-assessment with a score of 60 percent or better in order to claim SAMs, and may take the self-assessment as many times as needed to achieve a passing score.

Medicine

Morgan Wilson, MD Southern Illinois University

Schedule

Thursday, October 26

1:00 p.m. – 3:00 p.m.	Session A (Note: This session Consultations 106,	Grand Ballroom 2-3, 3rd Floor conflicts with 107, 108, 109, 110 and 111)
4:00 p.m 6:00 p.m.	Session B (Note: This session Consultations 112,	

Friday, October 27

7:00 a.m 9:00 a.m.		Grand Ballroom 2-3, 3rd Floor sion conflicts with 00, 201, 202, 203, 204 and 205)
10:00 a.m Noon	Session D Grand Ballroom 2-3, 3rd (Note: This session conflicts with Consultations 206, 207, 208)	

#ASDP2017

Optional Courses & Events (continued)

Self-Assessment in Dermatopathology (continued)

1:30 p.m. – 3:45 p.m. Self-Assessment Grand Ballroom 5-6,
Discussion 3rd Floor

(Note: This session conflicts with

Consultations 209, 210, 211, 212, 213, 214)

Upon completion of this course, participants should be able to:

- → Differentiate between diseases with similar or overlapping histopathologic findings.
- → Apply new diagnostic skills to a variety of skin conditions that will improve patient care.
- → Recognize key light microscopic features of common, rare and unusual entities.
- → Incorporate new information gained from the presented cases into dermatopathology practice.
- → Positively affect patient care with enhanced diagnostic skills in the more common cases likely to be seen in daily practice.
- → Recognize areas where new information gained from the presented cases has identified potential practice gaps and changed performance related to the presented cases.

Optional Courses & Events

Annual Society Dinner

Friday, October 27 7:30 p.m. – 11:00 p.m. Grand Ballroom 7-10, 3rd Floor

Lawrence E. Gibson, MD, *President*Come together with friends and colleagues!

Join the ASDP President Lawrence E. Gibson, MD, for the Annual Society Dinner. Attend the cocktail hour before dinner where you will rub elbows with the leaders in dermatopathology and reconnect with friends and colleagues. An outstanding dinner follows, giving you the chance to relax and chat. The evening culminates in the award ceremony, where the recipients of the Founders' Award and Nickel Award

will be honored. These are reasons why the ASDP Annual Society Dinner is one of the most popular events at the annual meeting.

Tickets may still be available. Stop by the ASDP Registration Desk to find out.

Meet the Program Directors

Saturday, October 28 6:45 a.m. - 8:00 a.m. Grand Ballroom 7-10, 3rd Floor

Are you a dermatology or pathology resident and thinking of applying for a dermatopathology fellowship?

During this session, trainees will have an opportunity to meet program directors from across the country. Participants will move from table to table in a "speed dating" format, allowing all attendees to get face time with multiple program directors. Attend this session and enjoy your morning coffee with your future program director.

This session is open to dermatology and pathology residents only. There's no fee to attend, but registration is required.

CME Tracker

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. ASDP designates this live activity for a maximum of 35 AMA PRA Category 1 CreditsTM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This form is for your personal tracking only. All CME claims should be completed online at www.asdp.org/AM17CME.

Course	Maximum Hours (35)	Hours Claimed
Thursday, October 26, 2017		
Mini Course - Alopecia: Step-by-Step	8:30 a.m Noon	3.25
Consultations in Dermatopathology	(Courses 100-114)	x 1.25 each
Short Course I	1:00 p.m. – 3:15 p.m.	2.25
Oral Abstract Session 1	3:45 p.m. – 5:15 p.m.	1.5
Duel in Dermatopathology	5:15 p.m 6:45 p.m.	1.5
