### 2012 Program Committee

Thomas N. Helm, MD, Chair State University of New York at Buffalo

Lawrence E. Gibson, MD

Mayo Clinic, Rochester

Noreen M. G. Walsh, MD, FRCP(c), FRCPath

Dalhousie University, Halifax

Klaus J. Busam, MD Memorial Sloan-Kettering Cancer Center

Steven D. Billings, MD Cleveland Clinic

#### **General Information**

#### **Continuing Medical Education**

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Society of Dermatopathology designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Society of Dermatopathology Annual Meeting (Program #254100) is recognized by the American Academy of Dermatology for 35 AAD Recognized Credits and may be used toward the American Academy of Dermatology's Continuing Medical Education Award.

#### **Continuing Medical Education Policy**

The American Society of Dermatopathology (ASDP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME). As such, we are required to meet the ACCME's expectations for our practice of continuing medical education.

It is the policy of the ASDP to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. Faculty participating in and planning the Annual Meeting must comply with all procedures governing disclosure. The ASDP has implemented a process where everyone in a position to control the content of an educational activity will present evidence-based content, disclose all relevant financial relationships with any commercial interest and discussion of unlabeled/investigational uses of a commercial product. In addition, presentations must be free of commercial bias and any information regarding commercial products/services must be based on scientific methods generally accepted by the medical community. Conflicts were resolved prior to this educational activity. Faculty who refused to disclose relevant financial relationships and discussion of unlabeled/investigational uses of a commercial product would have been disqualified from being a part of the planning and implementation of this CME activity.

Presenters who qualified for the implementation of this activity are required to verbally disclose to the audience, immediately prior to the scientific presentation, any of the relationships mentioned above. Faculty relationships are also disclosed to audiences in this program book.

#### CME Claims and Verification of Attendance

You will receive a CME claim form in your registration packet on which you are to indicate the number of CME hours you are claiming for this educational activity. The number of CME credit available for each course is indicated by the course title in this program and on the CME claim form. Complete this form and submit it along with your session evaluation forms in a drop box near the ASDP meeting registration center. You must return this form in order to receive appropriate CME credit. Your self-claimed CME credits will be recorded after the Annual Meeting and an official CME certificate will be mailed to you. Allow six to eight weeks for processing. Appropriate credit for attendance should be ascertained and reported by individual physicians to the particular state or medical society to which he/she belongs.

CME credit for the Self-Assessment sessions will not be included on the Annual Meeting CME Certificates. Participants must complete the post-course online self-assessment with a 50 percent pass rate or better in order to claim CME credit for Self-Assessment in Dermatopathology. A CME/MOC certificate will be available to print upon successful completion of the post-course online self-assessment.

For those registered in the AAD CME Transcript/Award Program, you should log in to the AAD Online CME Transcript Program to enter credits for this AAD Recognized program. ASDP's AAD program number is 254100.

#### **Participant Objectives**

The mission of the American Society of Dermatopathology is to teach, aid in the dissemination of knowledge, and encourage research, thus improving the quality of the practice of dermatopathology. The annual meeting is primarily an educational one, offering members, fellows, residents and medical students lectures on current topics in dermatopathology, interactive sessions at the microscope, a self-assessment course, and opportunities for poster and abstract presentations.

#### Overall learning objectives for the 2012 Annual Meeting:

- Translate how evolving basic science impacts diagnosis of cutaneous disease and guides patient treatment.
- Differentiate cases with similar or overlapping histopathologic features and increase performance on MOC examinations.
- Apply correct histologic analysis and diagnostic criteria that lead to accurate diagnoses in unusual and difficult cases.

#### Overall learning objectives (cont.)

- Describe recent advances and cutting-edge technologies in teledermatopathology and determine if teledermatopathology is the right choice for their practice.
- Discuss newer disease entities and extend the clinical relevance of these entities to realistic tests available to confirm these diagnoses.
- Optimize diagnosis, treatment and patient outcomes by utilizing the most important and reliable diagnostic tests available for primary cutaneous lymphomas.
- Employ the most current diagnostic tools for skin diseases of hospitalized patients.
- Utilize the most novel diagnostic techniques in dermatopathology.
- Integrate updated clinical and pathological characteristics of pediatric skin diseases into their practice to increase accuracy in diagnosis and better treatment.
- Summarize the criteria of a successful dermatopathology practice and appropriately managed dermatopathology laboratory.

#### **Poster Presentations**

#### 1 hour CME credit

Basic research, practical techniques and new clinical or histopathologic entities will be presented in this traditional and popular format. Posters will be on display in two poster sessions Thursday afternoon through Sunday morning. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Award. Awards will be presented on Sunday morning, 8:30 a.m. - 8:45 a.m., immediately before Short Course IV. See the Program-at-a-Glance for complete Poster Session 1 and 2 schedules.

The poster defense sessions will provide an opportunity for discussion between poster presenters and attendees. Poster presenters are asked to make every effort to be at their poster during the defense sessions.

### After attending the Poster Defense Sessions, participants should be able to:

- Identify practical techniques in dermatopathology.
- Name new clinical or histopathological entities.

#### **Slide Library**

Opens Friday, October 12 at 2 p.m.

Williford Room, 3rd Floor

Curator: Arthur K. Balin, MD, PhD

Sally Balin Medical Center for Dermatology & Cosmetic Surgery

The ASDP Slide Library opens Friday, Oct. 12, at 2 p.m. and will be open 24-hours-a-day through Sunday, Oct. 14, at 11 a.m.

Selected cases from the continuously growing slide library will be available for microscopic examination. Cases are accompanied by the diagnoses and other relevant written information and references. The 2012 Slide Library handout with case summaries, diagnoses with discussion and references will be available inside the library room.

#### Upon completion of study, participants should be able to:

- Explain histologic diagnoses of various skin conditions, including the use of ancillary studies, where appropriate.
- Interpret histologic diagnoses of uncommon skin diseases.
- · Critique cases that highlight diagnostic challenges.
- Apply morphological criteria to differential diagnoses of cutaneous lesions.
- Develop appropriate differential diagnoses for a wide spectrum of tumors and dermatoses.

#### **Membership Business Meeting**

Saturday, October 13
12:15 p.m. - 1:15 p.m.
International Ballroom South, 2nd Floor

Members should attend the ASDP Membership Business Meeting luncheon on Saturday, Oct. 13. The annual report to the membership will be distributed to each meeting participant.

#### **Evening Slide Symposium Preview**

Open 24 Hours! PDR #4, 3rd Floor

Preview the Evening Slide Symposium cases throughout the annual meeting and attend the Evening Slide Symposium Saturday evening.

#### **ASDP Career Center**

8th Street Registration Desk, Lobby Level

The official ASDP career center is located on the Web site at www. asdp.org; however, the Society has employment boards located on the Lobby Level near the 8th Street Registration Desk. Meeting registrants can post positions available or resumes for other attendees to peruse. Meeting attendees are responsible for making copies.

#### 2nd Annual Young Physicians' Reception

Thursday, October 11 9:00 p.m. - 10:00 p.m. Normandy Lounge

Dermatopathology fellows and dermatopathologists in their first seven years of practice are invited to network with the Young Physicians' Forum faculty members and other dermatopathology role models at the Young Physicians' Reception. Hors d'oeuvres and refreshments (wine/beer) will be served. Don't miss this unique opportunity to develop professional relationships with your leaders and peers.

# Faculty Disclosures of Relevant Financial Relationships

In keeping with ACCME standards, the following program faculty stated that they do not perceive having a conflict of financial interest that may have a direct bearing on the subject matter of the continuing education activity in which they are participants.

Raymond L. Barnhill, MD Terry L. Barrett, MD Jag Bhawan, MD Christopher K. Bichakjian, MD Steven D. Billings, MD Almut Böer-Auer, MD Nicole Burkemper, MD Klaus J. Busam, MD Michael Camilleri, MD J. Andrew Carlson, MD David S. Cassarino, MD, PhD Shawn E. Cowper, MD Lorenzo Cerroni, MD Loren E. Clarke, MD Clay J. Cockerell, MD Deborah L. Cook, MD Lynn D. Cooper, MD David J. DiCaudo, MD Rosalie Elenitsas, MD Dirk M. Elston, MD, FAAD Tammie C. Ferringer, MD Lindy P. Fox, MD Maxwell A. Fung. MD Lawrence E. Gibson, MD Gary Goldenberg, MD Loren E. Golitz, MD Geoffrey J. Laszlo J. Karai, MD, PhD Werner Kempf, MD Jinah Kim, MD, PhD Christine J. Ko, MD W. Clark Lambert, MD, PhD Rossitza Z. Lazova, MD Philip E. LeBoit, MD George P. Lupton, MD Daniela Massi, MD Timothy H. McCalmont, MD Darius R. Mehregan, MD David A. Mehregan, MD Dieter Metze, MD Diya F. Mutasim, MD Sylvia Pasternak, MD Rajiv M. Patel, MD Margot S. Peters, MD Victor G. Prieto, MD, PhD Viiava B. Reddv. MD Arlene S. Rosenberg, MD Beth S. Ruben, MD Omar P. Sangueza, MD Glynis A. Scott. MD M. Angelica Selim. MD Rajendra Singh, MD Leonard C. Sperling, MD Antonio Subtil, MD, MBA Uma Sundram, MD, PhD Janis M. Taube. MD Noreen M. G. Walsh, MD, FRCP(c), **FRCPath** Sarah N. Walsh, MD Roger H. Weenig, MD Kevin P. White. MD Carilyn Wieland, MD

#### The program faculty listed below disclosed the following information about their financial interests:

Faculty	Company	Affiliation/ Relationship
Boris C. Bastian, MD, PhD	Abbott Molecular	Investigator
Pedram Gerami, BS, MD	NeoGenomics, Inc. Abbott Molecular Myriad Genetics, Inc.	Consultant Consultant Consultant
Vasilios Kalogredis, JD, CHBS		Health Care Attorney
Mary C. Martini, MD	Dove-Unilever Melasciences Inc.	Consultant Investigator
Kathleen J. Smith, MD	Aurora Diagnostics, Georgia	Employee

#### **ASDP Art Show**

#### Thursday, October 11 - Saturday, October 13

Continental Ballroom Foyer, Lobby Level

The Young Physicians' Committee is sponsoring an event showcasing the artistic talents of the ASDP 49th Annual Meeting attendees. Be sure to stop by and view the exhibition. This multimedia event includes oil and acrylic paintings, watercolors, sculpture, photography, woodcarvings, ceramics, calligraphy paintings, pottery, woodcuts, wood burning, and lithography.

#### View the artistic talents of your colleagues!

"The most beautiful experience we can have is the mysterious - the fundamental emotion which stands at the cradle of true art and true science."

~ Albert Einstein

#### **Annual Award Recipients**

#### 2012 Founders' Award

Ronald P. Rapini, MD

Josey Professor and Chair, Department
of Dermatology

University of Texas Medical School and M.D. Anderson Cancer Center

The Founders' Award honors dermatopathologists who have made outstanding contributions to our field. This year's recipient is Dr. Ronald P. Rapini. Dr. Rapini is an internationally renowned

dermatopathologist and dermatologist. Professor and chair of the Department of Dermatology at the University of Texas M.D. Anderson Cancer Center in Houston, Dr. Rapini is actively involved in patient care, teaching and clinical research. He is the author or co-author of many publications including a textbook on dermatopathology and one co-edited with Drs. Jean Bolognia and Joseph Jorizzo. Dr. Rapini has served as president of the American Society of Dermatopathology, is a member of the American Academy of Dermatology Board of Directors, and is a past president of the American Board of Dermatology, the American Society for Mohs Surgery, and the Texas Dermatologic Society. Along with his many accomplishments, Dr. Rapini continues to mentor medical students and residents and participates in numerous courses and symposia. His colleagues have described his friendly manner and collegiality as traits that exemplify the values of our founding members.

Visit www.asdp.org for a list of previous Founders' Award recipients.

# Annual Award Recipients 2012 Walter R. Nickel Award

Ronald J. Barr, MD

Director, Barr Dermatopathology

A Division of Laguna Pathology Medical Group

Professor Emeritus, Dermatology and

Pathology, University of California, Irvine

The Walter R. Nickel Award for Excellence in the Teaching of Dermatopathology is awarded annually to honor an individual who has made great contributions in dermatopathology education. This year the award is presented to Dr. Ronald J. Barr.

Dr. Barr completed his undergraduate and medical education at Johns Hopkins University. His internship and pathology residency training were completed at the University of California San Diego (UCSD), interrupted by two years in the Navy stationed on the hospital ship Repose. He then completed a dermatology residency and dermatopathology fellowship at the University of California Irvine (UCI), under the tutelage of James H. Graham, MD. He is board certified in anatomic pathology, dermatology and dermatopathology. His first teacher in dermatopathology was Dr. Walter R. Nickel, who taught at both UCSD and the Naval Hospital San Diego.

Dr. Barr was on the faculty at UCI for 30 years, where he was director of dermatopathology, as well as professor of dermatology and pathology. While at UCI, he trained more than 90 dermatology residents, 13 dermatopathology fellows, and numerous visiting dermatology and pathology residents from California, other states and foreign countries. He was involved in numerous educational courses, nationally and internationally, where he often served as course director. He has served as past president of the American Board of Dermatology, where he was also assigned to several test committees. He is a past president of the American Society of Dermatopathology, and was chair of the Residency Review Committees for Dermatology and Dermatopathology. He left UCI in 2006, and currently is director of Barr Dermatopathology, a division of Laguna Pathology Medical Group, in Laguna Beach, California. He continues to teach dermatology and pathology residents from UCI, UCSD and Loma Linda University.

Visit www.asdp.org for a list of previous Walter R. Nickel Award recipients.

### **Committee Meetings Schedule**

All committee meeting rooms are located on the fourth floor, unless otherwise noted. Committee meeting attendance is by invitation only.

Thursday, October 11	
<b>3:30 p.m 6:00 p.m.</b> Board of Directors' Meeting	Waldorf Room, 3rd Floor
Friday, October 12	
<b>7:00 a.m 8:00 a.m.</b> Peer Review Committee History Committee JCP Editorial Board	4B 4C Boulevard A/B

#### **Program-at-a-Glance**

### The Plenary Program courses are open to all meeting attendees. Your full registration to the ASDP Annual Meeting includes:

- Young Physicians' Forum—Shopping for the Right Job: "Caveat Emptor"
- 13th Annual Duel in Dermatopathology
- Four Short Courses
- Hermann Pinkus Memorial Basic Science Course
- 2012 Elson B. Helwig Memorial Lecture
- · Fellows' Case Presentations
- · Evening Slide Symposium
- 24-hour access to the Evening Slide Symposium Slides
- Three Oral Abstract Sessions
- Two Poster Sessions
- · 24-hour access to the Slide Library

#### Optional Courses & Events require additional fees and include:

- Consultation in Dermatopathology Courses
- Self-Assessment in Dermatopathology Sessions
- · Board Review Course
- Mini-Course in Teledermatopathology
- President's Reception & Banquet
- \* Optional Courses & Events Separate tickets are required to enter each course or event.
- \*\*Board Review Course registration fee is waived for medical students, residents and dermatopathology fellows in training.

#### **Plenary Program**

Young Physicians' Forum
Shopping for the Right Job: "Caveat Emptor"

Thursday, October 11 1:00 p.m. - 3:00 p.m. Grand Ballroom, 2nd Floor

#### **Course Directors:**

Chris Jokinen, MD Essentia Health

Arlene S. Rosenberg, MD

MetroHealth Medical Center, Case Western Reserve University School of Medicine and Cleveland Skin Pathology Laboratory, Inc.

#### 2 hours CME credit

Dermatopathology fellows and early career dermatopathologists are invited to join us for this informative session. Career insights and advice will be available to all who attend the Young Physicians' Forum. A series of lectures will be followed by a Q&A session in which faculty will respond to your questions about career development and management in a relaxed and friendly environment. Don't miss this unique opportunity to develop professional relationships with your leaders and peers.

#### **Faculty and Course Outline:**

1:00 p.m 1:45 p.m.	Legal Considerations in Negotiating Employment Contracts Vasilios Kalogredis, JD, CHBS Kalogredis, Sansweet, Dearden and Burke, Ltd.
1:45 p.m. – 2:15 p.m.	Challenges in the First Five Years of Practice David S. Cassarino, MD, PhD Southern California Permanente Medical Group, University of California, Irvine
2:15 p.m. – 2:45 p.m.	Current Laboratory Management Issues, Controversies and Trends Dirk M. Elston, MD, FAAD Ackerman Academy of Dermatopathology
2:45 p.m 3:00 p.m.	Q&A

#### Upon completion of this course, participants should be able to:

- Identify relevant issues for successful employer contract negotiation.
- Recognize and manage professional challenges in the first five years of practice.
- Understand and manage current trends in laboratory management.

#### **Photographer Acknowledgement:**

The ASDP gratefully acknowledges Dr. Arnold Schroeter for volunteering his time and efforts to serve as this year's official annual meeting photographer.

Please smile when you see Dr. Schroeter aiming his camera at you.

#### **Plenary Program (cont.)**

#### **Oral Abstract Session 1**

Thursday, October 11 3:15 p.m. - 4:45 p.m. Grand Ballroom, 2nd Floor

Session Moderator: Rossitza Z. Lazova, MD

Yale University School of Medicine

Abstracts presented in Oral Abstract Session 1 can be found in the "Abstract & Handout" book.

#### 1.5 hours CME credit

Time	Title	Speaker
3:15 p.m. – 3:25 p.m.	Immunocytochemical p63 Expression in Primary Cutaneous B-cell Lymphoma; Further Evidence for Pathogenetic Heterogeneity	Zena Shukur, MBBS, BSc
3:25 p.m 3:35 p.m.	Coexisting Primary Cutaneous Lymphoproliferative Disorders with Benign Clinical Course and Retained Tumor Clone: A Series of 4 Patients	Anne M. Stowman, MD
3:35 p.m 3:45 p.m.	Evaluation of Follicular T-helper Cells in Primary Cutaneous CD4+ Small/ Medium Sized Pleomorphic T-cell Lymphomas & a Series of Inflammatory Dermatoses	Mina Ally, MBBS, BSc
3:45 p.m 3:55 p.m.	A Collaborative Study Using FISH to Identify Histologically Ambiguous Melanocytic Tumors with Potential for Aggressive Clinical Behavior	Pedram Gerami, MD
3:55 p.m 4:05 p.m.	Development of Melanocytic Proliferations, Including New Primary Malignant Melanomas, During Treatment with Vemurafenib, a Selective BRAF Inhibitor	Kari E. Sufficool, MD
4:05 p.m 4:15 p.m.	Cutaneous Clear Cell Sarcoma with Junctional Component and Pagetoid Spread Mimicking Melanoma	Alison L. Cheah, MBBS

#### The American Society of Dermatopathology

Time	Title	Speaker
4:15 p.m 4:25 p.m.	GAP43 in S100-Positive Cutaneous/Soft Tissue Neoplasms: A Marker that Distinguishes Malignant Peripheral Nerve Sheath Tumor from Spindle Cell Melanoma	Wei-Shen Chen, MD, PhD
4:25 p.m 4:35 p.m.	Immunohistochemical Study of Cutaneous Malignant Spindle Cell Neoplasms by Tissue Microarray	Sara E. West, MD
4:35 p.m 4:45 p.m.	"Pseudomelanocytic Nests" in Lichenoid Reactions: An Unsolved Mystery, Defying Immunohistochemical Studies	Charity B. Hope, MD

#### Upon completion of this course, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

#### Plenary Program (cont.)

# 13th Annual Duel in Dermatopathology Resident Abstract Competition

Thursday, October 11 5:00 p.m. - 6:30 p.m. Grand Ballroom, 2nd Floor

Course Moderator: Loren E. Clarke, MD

Penn State Milton S. Hershey Medical Center/

College of Medicine

#### 1.5 hours CME credit

Abstracts presented in the Duel in Dermatopathology oral abstract competition can be found in the "Abstract & Handout" book.

The American Society of Dermatopathology is pleased to present the 13th Annual Duel in Dermatopathology Abstract Competition for dermatology and pathology residents. This resident forum consists of succinct five-minute presentations. Prizes for first, second and third place will be awarded for the best clinical-pathologic case reports. Presentations will be evaluated on content, form and instructive value to dermatopathology. Abstracts selected to compete in the "Duel in Dermatopathology" will be published in a featured section of the *Journal of Cutaneous Pathology (JCP)*.

Award winners will be announced at 1:35 p.m., Saturday, Oct. 13, immediately prior to the Elson B. Helwig Memorial Lecture.

Time	Title	Speaker
5:00 p.m 5:05 p.m.	Griscelli Syndrome: A Case Report and Literature Review	Alicia M. Schnebelen, MD
5:05 p.m. – 5:10 p.m.	A Case of a Spitzoid Melanoma and Eruptive Spitzoid Lesions with a Heterogeneous Pattern of 9P21 Loss	Erick Jacobson-Dunlop, MD
5:10 p.m 5:15 p.m.	Interdigitating Dendritic Cell Sarcoma (IDCS) Presenting Only in the Skin	Adaobi I. Nwaneshiudu, MD, PhD

#### The American Society of Dermatopathology

Time	Title	Speaker
5:15 p.m. – 5:20 p.m.	An Unusual Case of Mycosis Fungoides with High Proliferation Index and CMYC/8Q24 Translocation	Zhuang Feng, MD, PhD
5:20 p.m 5:25 p.m.	Epithelioid Sarcoma-Like Hemangioendothelioma Diagnosed by Skin Biopsy in a 30-Year-Old Male	Lauren N. Stuart, MD, MBA
5:25 p.m 5:30 p.m.	A Case of Multicentric Castleman's Disease Arising Concurrently with Kaposi Sarcoma Associated Immune Reconstitution Inflammatory Syndrome	Matthew S. Goldberg, MD
5:30 p.m. – 5:35 p.m.	Composite Cutaneous Hemangioendothelioma on the Scalp with Local Metastasis	Aman Samrao, MD
5:35 p.m 5:40 p.m.	Autopsy Findings in a Prolonged and Relapsing Case of Drug Rash with Eosinophilia and Systemic Symptoms (DRESS)	Dawn Butler, MD
5:40 p.m 5:45 p.m.	Paraneoplastic-Like Pemphigus DRESS Syndrome Secondary to Traditional Vietnamese Herbal Medicine	Tandy S. Repass, MD
5:45 p.m 5:50 p.m.	Epidermolysis Bullosa Nevus: A Potential Mimicker of Melanoma	Katherine Fening, MD
5:50 p.m 5:55 p.m.	Polycythemia Vera Evolution to Cutaneous Myelofibrosis	Katherine Brick, MD
5:55 p.m 6:00 p.m.	Periodic Fever Syndrome- Like Disorder with Lipodystrophy, Myositis, and Autoimmune Abnormalities: Case Report and Review of the Literature	Alicia M. Schnebelen, MD

#### **Duel in Dermatopathology (cont.)**

Time	Title	Speaker
6:00 p.m 6:05 p.m.	Evolution of CD4+ Folliculotropic Mycosis Fungoides Into an Aggressive Epidermotropic CD8+ Large Cell Lymphoma Coexpressing Gamma- Delta and aß Tcrs	Sarah Choi, MD, PhD
6:05 p.m 6:10 p.m.	Blastic Plasmacytoid Dendritic Cell Neoplasm and Coexisting Chronic Myelomonocytic Leukemia - 1	Angela M.B. Collie, MD, PhD
6:10 p.m 6:15 p.m.	Primary Cutaneous Myoepithelial Carcinoma of the Scalp with Disseminated Metastases: An Exceedingly Rare Cutaneous Neoplasm	Keith A. Stevens, MD
6:15 p.m 6:20 p.m.	Basaloid Carcinoma of The Breast — A Potential Diagnostic Pitfall	Jason F. Solus, MD
6:20 p.m 6:25 p.m.	Histopathology of Nail Unit Red Lunulae: New Histologic Features and Clinical Correlations of a Rare Type of Erythronychia	Kelly Morrissey, MD
6:25 p.m 6:30 p.m.	Quicksilver Dermatitis with Evidence of Systemic Overload	Olena Dorokhova, MD, PhD

#### Upon completion of this course, participants should be able to:

- Expand diagnostic skills by recognizing clinicopathologic entities presented via abstracts.
- Utilize and interpret diagnostic clues and techniques identified by literature review of these cases.

#### **Plenary Program (cont.)**

# Short Course I - Cutaneous Lymphoid Infiltrates: Diagnostic Pitfalls and How to Avoid Them

Thursday, October 11 6:45 p.m. - 9:00 p.m. Grand Ballroom, 2nd Floor

<u>Course Director:</u> Noreen M. G. Walsh, MD, FRCP(c), FRCPath Dalhousie University, Halifax

#### 2.25 hours CME credit

This course will involve an overview and update on the subject of primary cutaneous lymphomas. Four internationally renowned experts in the field will address different subsets of the global topic. In each category important clinical and pathological aspects of individual diseases will be outlined. Moreover, the optimal investigative approach to diagnosis will be emphasized, the distinction between primary cutaneous lymphomas and cutaneous involvement by systemic lymphomas will be addressed, the best treatment options for patients will be considered and new developments will be revealed. In accordance with the title of the course, "diagnostic pitfalls" will be a special focus of discussion. Situations predisposed to errors in diagnosis including (i) poor clinicopathologic correlation, (ii) inappropriate or insufficient investigation, (iii) undue reliance on equivocal tests and (iv) suboptimal knowledge and/or experience in the area will be examined. The aim is to alert attendees to problematic aspects of this field and to equip them to competently handle the cases that they encounter in practice.

#### **Faculty and Course Outline:**

6:45 p.m 6:50 p.m.	<b>Opening Remarks</b> <i>Noreen M. G. Walsh, MD, FRCP(c), FRCPath</i> Dalhousie University, Halifax
6:50 p.m. – 7:20 p.m.	<b>Mycosis Fungoides</b> <i>Philip E. LeBoit, MD</i> University of California, San Francisco
7:20 p.m. – 7:50 p.m.	CD30+ Lymphoproliferative Disorders  Werner Kempf, MD  Kempf und Pfaltz, Histologische Diagnostik
7:50 p.m 8:20 p.m.	Primary Cutaneous B-Cell Lymphomas  Elaine S. Jaffe, MD  Center for Cancer Research, NCI

#### The American Society of Dermatopathology

#### **Short Course I (cont.)**

8:20 p.m. - 8:55 p.m. Aggressive Cutaneous Lymphomas

Lorenzo Cerroni, MD Medical University of Graz

8:55 p.m. - 9:00 p.m. **Closing Remarks** 

Noreen M. G. Walsh, MD, FRCP(c), FRCPath

Dalhousie University, Halifax

#### Upon completion of this course, participants should be able to:

- Reinforce existing knowledge of primary cutaneous lymphomas.
- · Identify important advances in the field.
- Recognize and avoid potential diagnostic traps.
- Apply competent handling of such cases in practice.

Visit the ASDP Career Center to view employment position listings. 8th Street Foyer, Lobby Level

#### **Plenary Program (cont.)**

# Short Course II - Inpatient Dermatopathology: Histologic Patterns that Matter Most

Friday, October 12 8:00 a.m. - Noon Grand Ballroom, 2nd Floor

Course Director: Beth S. Ruben, MD

University of California, San Francisco

#### 3.5 hours CME credit

With advanced therapies available to the very ill, analysis of skin biopsies generated on inpatient wards has become an ever-demanding activity. This session will examine a series of often encountered themes in the histopathologic diagnosis of cutaneous conditions in hospitalized patients. The emphasis will be on providing a practical session designed to aid dermatopathologists in daily signout, especially those in a hospital-based setting. However, the themes are broad and generalizable to the outpatient setting as well. Common clinical patterns and their differential diagnoses will be discussed to lay a foundation. An update to our knowledge of graft versus disease and a practical approach to its diagnosis will be offered, with respect to distinguishing it from other entities in the differential diagnosis. Both a review of known dermatopathologic entities and a discussion of new ones will then be provided, concentrating on infection, vasculitis and drug reactions.

#### **Faculty and Course Outline:**

8:00 a.m. – 8:05 a.m.	Introduction Beth S. Ruben, MD University of California, San Francisco
8:05 a.m. – 8:55 a.m.	Common Clinical Themes and Differential Diagnoses on the Inpatient Dermatology Service Lindy P. Fox, MD University of California, San Francisco
8:55 a.m 9:45 a.m.	Graft Versus Host Disease: A Review and What's New in the 21st Century Daniela Massi, MD University of Florence, Italy
9:45 a.m 10:15 a.m.	Refreshment Break

#### **Short Course II (cont.)**

10:15 a.m 10:50 a.m.	OMG, Really, I Caught That? Serious Infections and Infections of Hospitalization Timothy H. McCalmont, MD University of California, San Francisco
10:50 a.m 11:25 a.m.	New Aspects of Vasculitis and Its Simulators, with an Emphasis on the Hospitalized Patient Philip E. LeBoit, MD University of California, San Francisco
11:25 a.m Noon	latrogenic Dermatopathology: Recognizable Chemotherapy and Medication Reactions Beth S. Ruben, MD University of California, San Francisco

#### Upon completion of this course, participants should be able to:

- Identify clinical scenarios presented for diagnosis in hospitalized patients.
- Interpret histologic patterns that correlate to these scenarios.
- · Consolidate existing and new knowledge gained in this activity.
- Formulate a broad differential diagnosis targeted to this patient population.
- Apply this knowledge to provide optimum care and improve outcomes to hospitalized patients.

#### **Plenary Program (cont.)**

#### **Oral Abstract Session 2**

Friday, October 12 12:30 p.m. - 2:00 p.m. Grand Ballroom, 2nd Floor

<u>Session Moderator:</u> Almut Böer-Auer, MD

Dermatologikum Hamburg

Abstracts presented in Oral Abstract Session 2 can be found in the "Abstract & Handout" book.

#### 1.5 hours CME credit

#### Upon completion of this course, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

#### **Plenary Program (cont.)**

#### Hermann Pinkus Memorial Basic Science Course

Friday, October 12 3:00 p.m. - 6:00 p.m. Grand Ballroom, 2nd Floor

<u>Course Director:</u> Steven D. Billings, MD

Cleveland Clinic

#### 2.5 hours CME Credit

In honor of 50 years of ASDP, this year's Basic Science Course focuses on how our knowledge has grown over the past five decades. Practicing dermatopathologists will learn about how the evolution of our understanding of disease has improved our diagnostic approach and how this impacts patient care. This course will examine what we knew 50 years ago and what we know now, with an emphasis on melanocytic tumors, cutaneous lymphomas, vesiculobullous disease and vasculitis.

#### **Faculty and Course Outline:**

3:00 p.m 3:05 p.m.	Introduction Steven D. Billings, MD Cleveland Clinic
3:05 p.m. – 3:35 p.m.	Molecular Dermatopathology: The Road Ahead Boris C. Bastian, MD, PhD University of California, San Francisco
3:35 p.m 4:05 p.m.	Epidermal Adhesion in the Past 50 Years Michael Camilleri, MD Mayo Clinic, Rochester
4:05 p.m 4:30 p.m.	Refreshment Break
4:30 p.m 5:05 p.m.	Cutaneous Vasculitis: The Role of Pathology in the Move from Symptomatic to Targeted Therapy J. Andrew Carlson, MD Albany Medical College
5:05 p.m 5:40 p.m.	Cutaneous Lymphomas: Progress and Perspectives Lorenzo Cerroni, MD Medical University of Graz
5:40 p.m 6:00 p.m.	Q&A

#### Hermann Pinkus Memorial Basic Science Course (cont.)

#### Upon completion of this course, participants should be able to:

- Understand how the evolution of basic science affects dermatopathology practice today.
- Apply the conceptual aspects to daily practice.
- Apply knowledge to better understand melanocytic tumors, cutaneous lymphomas, immunobullous disease and vasculitis.

Visit www.asdp.org/AM12 for a list of previous Hermann Pinkus Memorial Lectures.

Be sure to visit this year's ASDP Mentorship Awards in Dermatopathology poster presentations on display in the Continental Ballroom Foyer, Lobby Level.

#### Short Course III - Melanoma: Then and Now

Saturday, October 13 8:00 a.m. - Noon Grand Ballroom, 2nd Floor

Course Director: Klaus J. Busam, MD

Memorial Sloan-Kettering Cancer Center

#### 3.5 hours CME credit

The faculty in this course will review advances in analytical methods and concepts relevant for the diagnosis, prognosis and management of patients with melanoma. Points of discussion will include:

- The importance of clinicopathologic correlation for diagnosis and the role of dermoscopic findings in this process.
- Light microscopic clues for the diagnosis of melanoma their strengths and limitations.
- Genetic and genomic aberrations of melanocytic tumors and their impact on tumor classification and diagnosis.
- Refinements in prognostic models of melanoma and their impact on reporting pathologic findings.
- Changes in the surgical management of patients with melanoma and their impact on pathologic analyses.

This program aims to alert the audience to problem areas in the diagnosis and management of patients with melanoma and to familiarize them with the most up-to-date methods, their potential benefits as well as limitations.

#### **Faculty and Course Outline:**

8:00 a.m 8:40 a.m.	The Clinical Diagnosis of Melanoma — An Evolution in Technology Mary C. Martini, MD Northwestern University, Feinberg School of Medicine
8:40 a.m 9:20 a.m.	The Pathologic Diagnosis of Melanoma — Then and Now Klaus J. Busam, MD Memorial Sloan-Kettering Cancer Center

### **Short Course III (cont.)**

9:20 a.m 10:00 a.m.	The Classification of Melanoma — Then and Now Boris C. Bastian, MD, PhD University of California, San Francisco
10:00 a.m 10:30 a.m.	Refreshment Break
10:30 a.m. – 11:10 a.m.	Prognostic Assessment of Melanoma — Then and Now Jinah Kim, MD, PhD Stanford University
11:10 a.m 11:50 a.m.	Surgical Management of Patients with Melanoma — Then and Now Christopher K. Bichakjian, MD University of Michigan
11:50 a.m Noon	Q & A

#### Upon completion of this course, participants should be able to:

- Identify advantages and limitations of novel methods for the clinical and histopathologic diagnosis of melanoma.
- Understand the clinical relevance of novel insights into the genetics of melanocytic tumors.
- Utilize current prognostic models and management algorithms for patients with melanoma and understand what clinicians expect from a modern pathology report.

#### 2012 Elson B. Helwig Memorial Lecture

Saturday, October 13 1:45 p.m. - 2:45 p.m. Grand Ballroom, 2nd Floor

Lecturer: Boris C. Bastian, MD, PhD

University of California, San Francisco

#### 1 hour CME credit

This clinically oriented lecture began in October 1998 as the "Special Guest Lecture." On July 31, 2000, the "Special Guest Lecture" was officially named the Elson B. Helwig Memorial Lecture in tribute to Dr. Helwig. The lectureship is awarded in recognition of excellence in the realm of diagnostic dermatopathology and for significant contribution to the dermatopathology literature and the education of fellows and colleagues.

#### Boris C. Bastian, MD, PhD

Professor of Dermatology and Pathology, Gerson and Barbara Bakar Distinguished Professor of Cancer Biology

University of California, San Francisco

#### "Toward Precision Dermatopathology"

Medicine is evolving from the intuitive art practiced by highly specialized practitioners to a new phase

that has been termed Precision Medicine. Diagnoses in Precision Medicine are made based on a firm understanding of the underlying pathogenetic mechanism, a prerequisite for predictable therapeutic results and outcomes, as well as an optimal risk-benefit ratio of therapeutic interventions. Pathology as well as dermatopathology will have to embrace and adapt these concepts and relevant technologies in order to maintain its key role in guiding clinicians.

Visit www.asdp.org/AM12 for a list of previous Elson B. Helwig Memorial Lecturers.

#### 2012 President's Address

Saturday, October 13 2:45 p.m. - 3:15 p.m. Grand Ballroom, 2nd Floor

President: Jennifer M. McNiff, MD

1 hour CME credit

Jennifer M. McNiff, MD
Professor of Dermatology and Pathology
Director of Dermatopathology, Yale University

"The ASDP: History, Highlights and Hopes"
As the ASDP begins its 50th anniversary year, we will review highlights of the past, and hopes and plans for the future.

# Congratulations to the 2012 Dermatopathology Research Career Development Award Recipient

Basil A. Horst, MD
Columbia University
Analysis of Inositol Polyphosphate
4-Phosphatase Type II in Melanocytic Lesions

#### Upon completion of this session, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

With Audience

Response System

## **Plenary Program (cont.)**

#### **Evening Slide Symposium**

Saturday, October 13 6:00 p.m. - 9:00 p.m. Grand Ballroom, 2nd Floor

Course Director: Steven D. Billings, MD

Cleveland Clinic

#### 3 hours CME credit

View the Evening Slide Symposium cases on the ASDP Web site (www.asdp.org).

In this traditionally popular symposium, a five-member panel will present 15 microscopically challenging cases. An in-depth discussion by the panel will focus on the histological and clinicopathological aspects of each case. A relaxed and educationally stimulating atmosphere is planned.

Audience participation is encouraged, via an audience response system, and casual attire is expected. Complimentary soda and snacks will be served.

#### Faculty:

Loren E. Clark, MD, Penn State Milton S. Hershey Medical Center/ College of Medicine

Christine J. Ko, MD, Yale University School of Medicine

Rajiv M. Patel, MD, University of Michigan

Victor G. Prieto, MD, PhD, University of Texas - M. D. Anderson Cancer Center Janis M. Taube, MD, Johns Hopkins Hospital

#### Upon completion of this course, participants should be able to:

- Demonstrate an approach toward diagnosis of various challenging skin biopsies.
- Generate clinically relevant differential diagnoses.
- Differentiate clinical and histological features of interesting, difficult and rare disorders of the skin.

#### **Oral Abstract Session 3**

Sunday, October 14 7:30 a.m. - 8:30 a.m. Grand Ballroom, 2nd Floor

<u>Session Moderator:</u> Roger H. Weenig, MD

University of Minnesota

#### 1 hour CME credit

# Short Course IV - Pediatric Dermatopathology: A World of Its Own

Sunday, October 14 8:45 a.m. - Noon Grand Ballroom, 2nd Floor

<u>Course Director:</u> Noreen M. G. Walsh, MD, FRCP(c), FRCPath Dalhousie University, Halifax

#### 3.25 hours CME credit

The design of this course is influenced by the fact that, apart from dedicated subspecialists, most dermatologists, pathologists and dermatopathologists have limited exposure to childhood skin disease. Moreover, some entities encountered in this patient population are rare but nonetheless of vital importance. To address the challenges inherent in this setting, six dermatopathologists with expertise in different aspects of pediatric dermatopathology will condense their knowledge and together convey a practical overview of the topic. A spectrum of inflammatory and neoplastic skin diseases in children will be addressed, with an emphasis on clinical and pathological clues to accurate diagnosis and optimal management. The discussion will range from uncommon manifestations of common diseases to rare and exotic entities. The goal is to provide a comprehensive overview of an area of dermatology and dermatopathology where practitioners may lack experience of the full spectrum of disease.

#### **Faculty and Course Outline:**

8:45 a.m 8:50 a.m.	Introduction Noreen M. G. Walsh, MD, FRCP(c), FRCPath Dalhousie University, Halifax
8:50 a.m 9:20 a.m.	Skin Disease in Children: Reflections of Hematological Disorders Rossitza Z. Lazova, MD Yale University School of Medicine
9:20 a.m 9:50 a.m.	Atypical Melanocytic Tumors in Children: Clinicopathologic and Genetic Correlations Lorenzo Cerroni, MD Medical University of Graz
9:50 a.m 10:20 a.m.	The Eye as it Relates to Pediatric  Dermatopathology  Sylvia Pasternak, MD  Dalhousie University, Halifax

#### The American Society of Dermatopathology

10:20 a.m 10:50 a.m.	Inherited Disorders of Practical Importance in Pediatric Dermatopathology Dieter Metze, MD University of Münster
10:50 a.m 11:20 a.m.	Inflammatory Skin Diseases of Special Relevance to Children Almut Böer-Auer, MD Dermatologikum Hamburg
11:20 a.m 11:55 a.m.	Important Vascular Lesions in Children Omar P. Sangüeza, MD Wake Forest University School of Medicine
11:55 a.m Noon	Closing Remarks Noreen M. G. Walsh, MD, FRCP(c), FRCPath Dalhousie University, Halifax

#### Upon completion of this course, participants should be able to:

- Address a broad spectrum of topics in pediatric dermatopathology.
- Identify clinical and pathological clues of practical importance in this area.
- Evaluate uncommon manifestations of common diseases.
- Recognize rare entities, especially those with important implications for the patient and his/her family.

Submit your evaluation and CME Claim forms in conveniently located drop boxes near the ASDP registration center.

## **Optional Courses & Events**

#### **Board Review Course**

Thursday, October 11 8:30 a.m. - Noon

International Ballroom South, 2nd Floor

<u>Course Director:</u> Lawrence E. Gibson, MD *Mayo Clinic, Rochester* 

#### 3.5 hours CME credit

**Back by Popular Demand!** This course will provide up-to-date information needed to pass the dermatopathology certifying examination and assumes basic competency in the field. This course will also benefit practitioners who would like an up-to-date review to fill practice gaps.

This course is not designed to be a comprehensive review of the dermatopathology board examinations.

Be on time: Participants must be on time to this course. Due to high demand and limited space, seats will only be held for 15 minutes after the start of the course. All unclaimed seats will be released to those waiting on a first come, first served basis at 8:45 a.m. No exceptions.

### **Faculty and Course Outline:**

8:30 a.m 8:35 a.m.	Introduction to the Course and Objectives  Lawrence E. Gibson, MD  Mayo Clinic, Rochester
8:35 a.m 9:00 a.m.	<b>Genodermatoses</b> <i>Darius R. Mehregan, MD</i> Pinkus Dermatopathology Lab PC
9:00 a.m 9:25 a.m.	Connective Tissue Disease, Panniculitis and Vasculitis <i>Margot S. Peters, MD</i> Mayo Clinic, Rochester
9:25 a.m 9:50 a.m.	<b>Melanocytic Lesions</b> <i>Rosalie Elenitsas, MD</i> University of Pennsylvania
9:50 a.m. – 10:15 a.m.	<b>Soft Tissue Tumors</b> <i>Rajiv M. Patel, MD</i> University of Michigan

#### The American Society of Dermatopathology

10:15 a.m. – 10:40 a.m.	Lymphoma and Lymphoproliferative Diseases Loren E. Clarke, MD Penn State Milton S. Hershey Medical Center/College of Medicine
10:40 a.m. – 11:05 a.m.	<b>Tropical and Extraordinary Diseases</b> <i>Tammie C. Ferringer, MD</i> Geisinger Medical Center
11:05 a.m. – 11:30 a.m.	Selected Molecular Genetic Studies in Dermatopathology Diya F. Mutasim, MD University of Cincinnati
11:30 a.m. – 11:55 a.m.	Clinical and Pathologic Correlation and Immunodermatology Michael Camilleri, MD Mayo Clinic, Rochester
11:55 a.m Noon	Closing Remarks Lawrence E. Gibson, MD Mayo Clinic, Rochester

#### Upon completion of this course, participants should be able to:

- Identify potential board examination topics.
- Utilize new technology to assist with various diagnoses and treatment methods.
- Improve skills in clinicopathologic correlation.

## **Optional Courses & Events (cont.)**

# Consultations in Dermatopathology 1.25 CME credit per course

Fee: \$105 per course

Tickets are required to enter each course.

All Consultations in Dermatopathology rooms are located on the third floor. All courses use a 10-headed microscope with a class size of nine. Generally, each session permits 30 minutes of study at individual microscopes followed by 45 minutes of interactive work with the course director.

Thursday, October 11 - Sunday, October 14 Continental Ballroom Foyer, Lobby Level

Visit the ASDP 50th Anniversary Exhibit Booth to view the historic timeline, a demo of the ASDP Online Timeline and an interactive Dermatopathology Family Tree.

## **Optional Courses & Events (cont.)**

## Self-Assessment in Dermatopathology

<u>Course Director:</u> Lawrence E. Gibson, MD *Mayo Clinic, Rochester* 

6.5 hours CME credit 6.5 SAMs

100 MOC SA Question Credits

<u>Fee:</u> \$205 per course – Tickets are required to enter each course and Discussion Session.

Be on time—Self-Assessment sessions begin on time. Due to the timed schedule of each session, doors will close promptly at start time. Late arrivals will not be permitted. No refunds will be given for sessions missed due to tardiness. No exceptions.

Participants will have the opportunity to study 50 challenging slides representing a wide range of inflammatory and neoplastic diseases during one of four identical sessions (A, B, C or D). Subsequently, all participants will meet in a single Self-Assessment Discussion session in which faculty members will review the diagnostic features of each case, as well as the differential diagnosis. You must be registered for one of the Thursday or Friday courses (A, B, C or D) to attend the Discussion session. Separate tickets are required to enter each course.

### NEW THIS YEAR!

**Post-Course Online Self-Assessment:** A post-course online self-assessment will be available after the meeting and will include 25 core knowledge cases in addition to the 50 advanced cases studied at the meeting. Registrants

must take the post-course online self-assessment in order to claim CME, SAMs or MOC SA question credits. Self-assessment registrants will receive a link to the post-course online self-assessment by email approximately two to three weeks after the Annual Meeting and will have up to 30 days to complete. Self-Assessment participants must take the post-course online self-assessment to receive CME and MOC credit for this activity.

**CME** — Participants must complete the post-course online self-assessment with a 50 percent pass rate or better in order to claim CME credit. A CME/MOC certificate will be available to print upon successful completion of the online post self-assessment. CME credit for the Self-Assessment sessions will not be included on the Annual Meeting CME Certificates.

**MOC** — The ASDP Annual Meeting Online Post-course Self-Assessment offers MOC self-assessment credits to satisfy the American Board of Dermatology (ABD) Component 2 and the American Board of Pathology (ABP) Part II MOC requirements. The Annual Meeting post-course online self-assessment is also eligible for CME credits.

**ABD SA** — ASDP is a provider of Self-Assessments (SAs) to satisfy the American Board of Dermatology (ABD) Maintenance of Certification program Component 2. The ASDP Self-Assessment in Dermatopathology offers up to 100 MOC SA question credits. Participants must take the post-course online self-assessment in order to claim SA points.

**ABP SAMs** — ASDP is a provider of Self-Assessment Modules (SAMs) for Part II of the Maintenance of Certification program of the American Board of Pathology (ABP). The ASDP Self-Assessment in Dermatopathology offers six and a half (6.5) SAMs. Participants must take and pass the post-course online self-assessment with a 50 percent pass rate or better in order to claim SAMs, and may take the self-assessment as many times as needed to achieve a passing score.

## Thursday, October 11

1:00 p.m. – 3:00 p.m.	Session A (Note: This session conflicts with Consultations 106, 107, 108, 109, 110 and 111)
3:15 p.m. – 5:15 p.m.	Session B (Note: This session conflicts with Consultations 109, 110 and 111)

## Friday, October 12

7:00 a.m. – 9:00 a.m.	Session C (Note: This session conflicts with Consultations 200, 201, 202, 203, 204 and 205)
10:00 a.m Noon	Session D (Note: This session conflicts with Consultations 206, 207, 208)
2:00 p.m 6:00 p.m.	Self-Assessment Discussion (Note: This session conflicts with Consultations 209, 210, 211, 212, 213, 214, 215,

216 and 217)

## Self-Assessment in Dermatopathology (cont.)

#### Faculty:

Nicole Burkemper, MD, Saint Louis University

Loren E. Clarke, MD, Penn State Milton S. Hershey Medical Center/College of Medicine

Deborah L. Cook, MD, University of Vermont College of Medicine

David A. Mehregan, MD, Wayne State University

Margot S. Peters, MD, Mayo Clinic, Rochester

Vijaya B. Reddy, MD, Rush University Medical Center

Beth S. Ruben, MD, University of California, San Francisco

Glynis A. Scott, MD, University of Rochester School of Medicine

Antonio Subtil, MD, MBA, Yale University

Sarah N. Walsh, MD, Cutaneous Pathology WCP Laboratories, Inc.

Roger H. Weenig, MD, University of Minnesota

Kevin P. White, MD, Oregon Health and Science University

Carilyn Wieland, MD, Mayo Clinic, Rochester

#### Upon completion of this course, participants should be able to:

- Recognize key light microscopic features of common, rare and unusual entities.
- Expand diagnostic skills by increasing familiarity with a variety of skin conditions.
- Differentiate between diseases with similar or overlapping histopathologic findings.
- Incorporate new information gained from the presented cases into dermatopathology practice.
- Recognize areas where new information gained from the presented cases has identified potential practice gaps and altered performance related to the presented cases.
- Modify existing comfort level with the more common cases likely to be seen in daily practice.

## **Optional Courses & Events (cont.)**

Mini-Course: Teledermatopathology — An Introduction to the Future

Friday, October 12 4:30 p.m. - 5:45 p.m. Waldorf Room, 3rd Floor

#### **Course Directors:**

Laszlo J. Karai, MD, PhD University of Texas Southwestern

Laszlo Igali, MD Royal College of Pathologists, Norfolk, UK

Be on time—Participants must be on time to this course. Due to high demand and limited space, seats will only be held for 15 minutes after the start of the course. All unclaimed seats will be released to those waiting on a first come, first served basis at 4:45 p.m. No exceptions.

This course will focus on state-of-the-art methods used to collect and transmit imaging data for diagnosis and teleconsultations in dermatopathology. A new iPhone/iPad application for differential diagnosis in dermatopathology will also be presented.

#### Faculty:

Laszlo J. Karai, MD, PhD, University of Texas Southwestern Laszlo Igali, MD, Royal College of Pathologists Rajendra Singh, MD, University of Pittsburgh

#### Upon completion of this course, participants should be able to:

- · Gain historical perspectives of teledermatopathology.
- Understand the principles and practice of slide scanning.
- Use a new mobile application for differential diagnosis in dermatopathology.
- Establish and set up a secure videoconferencing connection.
- Choose an appropriate teledermatopathology system.
- Use teledermatopathology for External Quality Assurance (EQA).

# Optional Courses & Events (cont.) President's Reception and Banquet

Jennifer M. McNiff, MD, President

Friday, October 12
7:00 p.m. – 11:00 p.m.
Red Lacquer Room
Palmer House Hilton

#### 6:45 p.m.

Buses depart from 8th Street side of the hotel on the Lobby Level for the Palmer House Hilton.

This is a ticketed event. Space may be available. Visit the ASDP registration desk for information.

#### Return to where it all began...

The President's Reception and Banquet will be held in the historic Red Lacquer Room at the Palmer House Hilton where history was made for our society nearly 50 years ago. The Red Lacquer Room was the location of the very first meeting of the American Society of Dermatopathology in 1962. It seems fitting that we should return to where it all began so many years ago!

A selected group of dermatologists and pathologists actively interested in the teaching of dermatopathology were invited to the initial organizational meeting and founding of the society.

- Preamble, The American Society of Dermatopathology Constitution and Bylaws, 1962

## Palmer House Hilton Red Lacquer Room

The story of the downtown Chicago's Palmer House Hilton is one of romance and charm. Potter Palmer bought his socialite and philanthropist bride Bertha a grand Chicago hotel as his wedding gift. Tragically, just 13 days after its grand opening, the Palmer House fell victim to the Great Chicago Fire. Determined to rebuild, Potter secured a \$1.7 million loan and on November 8, 1873, the new Palmer House opened its doors. This marked the opening of what would become the nations' oldest continually operating hotel. Bedecked with famed murals likened to the Sistine Chapel and sculptures from Louis Comfort Tiffany, the history of the celebrated Palmer House continues to impress even the most discriminating traveler.

Provia Diagnostics is a professional anatomic pathology lab that provides the highest quality slides with outstanding personalized service. We perform special stains and high complexity immunohistochemical staining. Operating as Harris Histology Relief Services for more than 25 years, this dedicated team has provided the technical component service to dermatopathologists and pathologists. Provia Diagnostics recently added the professional component to its menu and can furnish this service tailored to client needs. We provide the latest technology for secure web access and specimen tracking, offering superior patient safety. Provia offers competitive pricing, highest quality services, 24 hour in-house turnaround and roundtrip delivery for histology services anywhere in the United States.
